Subject: Fake Apple Receipt question!

Hi James...how are you and [REDACTED]? (sp??)!

Question...it appears to me i received a fake confirming Apple invoice with a PDF attachment...I opened the attachment on my phone...is this a problem? Have I been hacked?

(I opened the attachment cause I had a strange Microsoft X-Box charge on my credit card from March 19 and I thought this might be related...but now I am worried I should not have clicked on the PDF...)

Can you ease my anxiety?

:) Lesley
