---

Hi Lesley,

Thanks your news, I haven't got my shutters but it will be done soon...I will get in touch with you while summer whether Jeffrey comes and need to touch base with me. In the meantime I wish you the best luck for the up coming hurricane season, I do hope as you said you could rest this year!

Best,

Kevin.

> HI Kevin...sorry for the delay in response...I do hope this coming hurricane season will be far less dramatic than last years...so devastating to so many. Jeffrey's islands have a long way to go as well...he does not go there very often ...works in progress like all is around the Caribbean. I hope you get your shutters soon! Feel free to touch base again as August approaches...not sure where or what Jeffrey will be up to...

I hope we'll have a rest this year my house doesn't have shutters yet as many enterprises are overbooked with building after Irma.. I was wondering how things are going for GSJ and LSJ as I know you had big loss in terms of landscape and building. I'll be in tortola in august for a project and I might get to st Thomas also. maybe it could be a good time to catch up.
