As requested, I am forwarding the attached drawings for Great St. James. The contours in the DWG file are from aerial methods, by others, from the 1970s and do not incorporate road improvements. Road locations are shown with spot elevations. This information is suitable for generalized conceptual planning. Topographic surveys are recommended for site specific planning.

Sincerely,

Ryan C. Wischart, PLS

Good day Ryan

Would it be possible to send in DWG, Topo of Great St James ideally in AutoCad version 2007, direct to John Heah and Delfina, attached email's.

[REDACTED]
any concerns let me know
