**Subject:** Fwd: 2nd beach well, GSJ

**Date:** Thu, 23 May 2019 19:55:04 +0000

**Attachments:** IMG\_0372.JPG; IMG\_0373.JPG

---

The second seawater intake well on GSJ was installed today and flow tests were good. we will utilize both wells for the desal unit and should not have any flow issues.

No boat traffic at all while work was being done.

The discharge well for the brine was laid out and will be installed on Tuesday, next week.
