OMG...Stephanie, on one hand, congratulations on your son's wedding!! and officiating! How wonderful... but on the other, so incredibly sorry to hear more on your father...I did know he was ill...I'm glad you will be there for him. Hoping for the best of course...

and on the third hand (ha ;) I'm terribly stressed to know you are leaving MONDAY! But I'm sure all will go as best as it can...as you said it will be a transition...but way more important you are around for your father and your son.

we will keep in touch...take care and thank you for reaching out cause I was not aware of your departure on Monday!, Lesley

> As you may recall, my father has recently been diagnosed with cancer and given a very poor prognosis. He has already failed two types of chemotherapy. The chemo to prepare him for the infusion is beginning this coming week and is expected to make him very ill and further weaken him. The first week after the infusion is critical and will require hospitalization. If it does not work (the odds are not good), he will not have much time left.
