

---

I have prepaid for a car for [REDACTED] through Amex with Hertz. She can pick the car up tomorrow June 21 after 10am from hertz rental at airport. She still must show valid DL and a credit or debit card and a credit score validation is required. Hertz confirm#G2422405319. The Amex Rep has faxed the reservation directly to Hertz at Warsaw airport. The Amex Rep says everything should be fine but wanted to let me know this is a franchised hertz and the card on file (the card paying for the rental) does not need to be presented according to hertz, but since this is a franchise there is a slight possibility they could say something-but they shouldn't because it is booked through a travel agent and she has faxed them the reservation and your card will be approved by 10am tomorrow. Please open the PDF and you can read the Amex rep statements. OK TO SEND TO [REDACTED]=20
