use their three trillion dollars as reserves as a burden not a benefit. (what can they do with that money . . sell it and buy ??? what ? gold? euro? yen. no they're fucked. they are too big to sell. . have to be careful that their bankruptcy don't disrupt the entire system but financial failures have a way of unintended consequences

just published two minutes ago The comments appear intended to stir the spirit of the Chinese people as the Trump administration continues to press China on trade. But they also seem to acknowledge that the Chinese public could face difficult times ahead.
