They also were adamant and agreed with you , that China for the very first time is following an imperialistic strategy, well thought through. Covered in nice " silk" . And lamented the moment that Total , the French oil co , was forced to leave Iran . China was there within the week .

they are all sympathetic it looks like, but apparently their mandate is not to ask questions or even convince dean that dismissal is not warranted. They can just ask Dean if he has any middle ground, and then ask me, and if it looks like there is no possible convergence then they do a report on it. She said she wasn't sure it was even worth my coming down.. but she did suggest to the committee they meet with the Dean first to see if anything was possible. She was bummed out that their job wasn't to assess and judge.. so not sure why they even have the materials.. Anyway, she figures Dean won't take any middle ground that doesn't involve dismissal.. We can talk tomorrow.

Here is your sept 9 email: I am writing this as part of the concilation process. The following is abundantly clear to me . The Unviersity does not have sufficient grounds under the law (both current and proposed) to i dismiss me given all the facts. 2 I am no

longer welcome at ASU. 3, The university has taken steps outside of the normal process which has caused me serious reputational and financial damage. 4 . I intend to pursue all my legal options to fully recover those damages. .5. I would , in the spirit of cooperation be open to a fair resolution . thnx

also above.. you wrote: "Can she suggest to the committee that you sit with dean and them"... so my strategy was to do as you said in the 5 items above.. depending upon what you think #5 should be.. in the first meeting on wed the 26th and then request a second meeting with the committee and the dean whatever he tells them when he meets with the committee.. and that meeting would be on sept 28. That is what I wanted to ask you.. if that strategy seems sound..

and finally, since we began our conversation with this.. regarding Moonves.. since it is clear they violated the ABOR regs and my rights by putting me on administrative leave and not allowing me to appeal that.. do we save that for the next hearing, or wait till I am officially fired, and we go to the Arizona Appeals court, or wait till they also fire me and we commence a lawsuit? I wanted to ask you about that strategy too.

tomorrow. You have exhausted my patience. sorry. you tell everyone how to do their job . peter at buzz, feed. he can't write that because i sent him.... they can't dismiss me because the conciliation committee ... my assistant. my flights. my dinners. , I will talk to you when you can focus. The ludicrous telling me what my own emails say instead of listening has no end , as you have now decided to become a lawyer

I understand I have exhausted your patience and rightly so. I just wish we could talk for 5 min before tomorrow because I have to give the university the times I am available and right now Kimberley is urging the committee to meet with the dean first. Should I go along with this, in which case the questions they may ask me will be different, or should I try to meet with them first and then indicate my willingness to meet with them and the dean after they meet with him? That was going to be the point of my call till we got sidetracked.

let me think, 1 . I would think that the world got to vote on the trump presidency. and it votes by buying dollars . look at lira. venezuela brazil. india. europe. the world voted and the Us is way ahead. all the worry about tariffs, trade etc are reflected in the strength of the dollar.

2. all the talk about lower tax revenues misses the point . it is about the country's cash flow not internally generated revenue . billions of dollars came back from europe. , and into our system it is not reflected in tax revenue numbers. ex , if apple brings back 100 billion dollars and invests it , it does not show in treasury tax revenue figure

in addition , wage rise AFTER unemployment goes down. NOT before. ! trump first put the most disadvantaged the UNEMPLOYED first. . and with great success. can you imagine the attacks if wages went up , but the blacks and hispanics were still without work. He needs to be given TIME . the first play has worked. he believes in a winning game strategy, you can't judge it because he hasn't scored a touchdown from way in his own backfield. (ball given to him by obama on his own 10 yard line) he has moved the ball way up the field. and the dems can see the touchdown coming. yes there have been some fumbles along the way, no question. and some have been taken off the field. but the horror and the dems faces is they see the team has progressed in spite of all the yellow flags and cries of foul. There (sic) defense is maxine waters and nancy pelosi) donalds offense is pompeo mattis and kelly. they don't have to like the quarterback they just have to win,

the football analogy , helps with the anonymous op ed. imagine if a team member thought they would work against tom brady strategy. fans would go crazy. . and like a football team they call each other dumbfuck in the locker room but pull together on the field

however ill stick to economic advice. you might also point out that saudi sovereign wealth fund needed to borrow money. !!. they mistakenly and childishly think that the fact that they can borrow 10 billion dollars at not a very good rate showed strength. but in fact, like their fade in the tesla mess , illustrates they have no cash. . I think masa is japanese's for madoff

Saudi Arabia set to enter the Guinness Book of Records with the display of the largest number of fireworks and unfurling of the largest national flag to mark the celebrations of the 88thNational Day. this is the mentality of other countries

the other two areas. 1. dems scream trump deregulating where mnuchin has instituted the stricter KYC rules in history. The U S leads. how many working class americans would put their money in Switzerland today where the banks charge YOU . 75 basis points to keep it there. so many bad actors. 2, crypto needs to be thought of similar to the internet. intl agreements . coordinated understandings . otherwise it is a ponzi scheme outside of the law
