The endo morphines. Suggested as a symbiosis with human. Helps reproduce. protect.
Etc. also might act as a defense by brining certain animals into ecology

Plants must not
They don't get fat which is cool

When there are extra resources they take what they need and grow bigger but they don't
store and get fat

iMessage

True addiction or habit formation or something seem like animal behaviors and not plant ones

Ok well maybe we can talk or on my next trip to New York we can plan out my next few years

I think I've got 8 more years of intelligent creative exploration and 20 more years of curiosity.

:-)

Opioid addiction - super interesting

It's been a problem for a zillion years and the ancient texts in Malay and Sanskrit have some cool plant based remedies

Turns out the plants are legit medications now but for other Diseases

I wonder if there is wisdom in the wisdom

I apologize for raising my voice. It was inappropriate. I wanted your advice. I also admit I was frustrated and saddened to hear about Black. The university chose to release his name and I expect they would have done that no matter what. And the attempt to change that language in the contract document was entirely to keep blacks name out of the document in the first place. Anyway I am hoping that he will calm down and rethink it. The smart foundation is listed too and I don't see that being associated with them impugned him. But anyway, I am sorry.
