ambling systems have been around for as long as gambling has. No system has ever been proven to work. From an inside source, I know that system salesmen go from selling one kind of system to another. It is a dirty business by which they steal ideas from each other, and are always attempting to rehash old systems as something new.

It's true, if you sit at the same table and play against one dealer what I do is looking at a lot of tables screens for «treasure»
I only bet if more than 7-10 times did not fall out for example «black» or «red» I bet \$ 10 if it not fails again, I skip the turn, then put 10\$ again to go to 0 or 20\$ to make 10\$

It's always come up, never can be 20 times "red" or "black" in the raw
The only thing that can be run out of money or dealers cheat

Plus I made a couple of rules, not playing with a dililer who looks at a roulette wheel

Ed is planning to come on 14 May, and stay to the end of that week.

Did you speak to Steve about Berlin date? Since Ed will be in NY that period it is easy for me to come to Berlin too.
