Medical treatments for ovarian cysts include:
Hormonal birth control pills to regulate the hormones and reduce the risk of developing more cysts.

The vaccination series can be started at age 9 years. Teen boys and girls who did not get vaccinated when they were younger should get it now. HPV vaccine is recommended for young women through age 26, and young men through age 21.

Sent it. Did you get it.

Movement on potentially buying the place in Victoria has stalled. Seems that because of asu retirement that income this year cannot be factored into mortgage app. Sigh.

Have to ease up on the porcacateur a bit at the beginning I think. I really lit into Martin Rees though. Wait for that one.

Audience will be mixture I think. Demographic for podcasts is mixed. And the choice of initial guests was designed to hit different demographics so we can learn who follows.
