CONDITIONS OF SALE

Thank you for choosing Artistic Tile. Read & sign our Conditions of Sale prior to purchase & be sure you & your installer or other agents are aware of the unique logistical & technical issues associated with any tile or stone purchase, delivery & installation. This document is a contract, so please read it carefully. To ensure a worry-free experience, please contact your Artistic Tile associate if you have any questions.

SCOPE OF WORK: Artistic Tile, Inc. is not a contractor & does not perform or contract for the installation of any product. As a courtesy to its clients, upon request Artistic Tile, Inc. will provide a list of local tile installers referred to us by our clients. This list shall serve as a recommendation only. Absent any specific instructions, generally accepted industry guidelines must be adhered to, including, but not limited to, Tile Council of North America Handbook & Marble Institute of America Dimensional Stone Design Manual.

QUANTITIES: All quantities must be verified in advance of purchase by the buyer's tile installer or general contractor. Artistic Tile, Inc. accepts no responsibility for quantities ordered. As a service to our clients, once you have selected your design, our associate will provide you with takeoff quantities for estimating purposes only & will attempt to directly contact the installer for the final specification quantities of each item.

PRODUCT INFORMATION: All tile is subject to variation in shade & size. All tile measurements are nominal. Tile & stone are not guaranteed after delivery against chipping, crazing, cracking or wear. All stone & crackle glaze ceramic tile must be sealed. All crackle glazes must be sealed when used in wet environments to minimize water penetration & tile discoloration. All crackle glaze tiles must be sealed prior to & after grouting. Crackle glazes will continue to crackle over time. For long term maintenance, we recommend resealing crackle glaze tiles every 3-6 months for the first year & every 6 months afterwards to further protect the glaze surface. Sealing does not make a crackle glaze tile waterproof nor prevent moisture migration into the clay body from the back or sides. Darkening of the clay body is possible, which can lead to darkening of the crackle, especially in light glaze colors. Crackle patterning will vary naturally.

CERAMIC/PORCELAIN/GLASS/STONE: Handmade & machine made tile is subject to irregularities in size, shape, color, warpage, moisture absorption, surface finish, texture & coefficient of friction. These characteristics are inherent to the manufacture of these products & are in part what creates their distinctive beauty. Stone is a natural material. There will be color variation from samples & displays, as well as within your shipment. No two pieces of stone are exactly alike. Each has unique natural variations which may include veining, markings, shadings, inclusions, chips, pits, fossils or other characteristics. We recommend that each order include a minimum of 20% overage on any tile product. For tiles 24" - 48" & larger, a minimum of 30% overage is recommended.

BLENDED AND DRY LAY OUT: Natural stone & ceramic tile require blending, as they naturally vary from piece to piece & across different segments of your order. It is the responsibility of the installer to remove materials from packaging & dry layout all materials to obtain the customer's approval of the blend before any tile is installed. This procedure is common practice in the installation of tile & stone & helps ensure the beauty of the finished installation. Artistic Tile, Inc. wants our customers to be delighted with their finished rooms, so this factor should be considered by the customer prior to purchase.

PAYMENT TERMS: 50% deposit is required on most orders with exceptions to follow. Orders under \$2500 are charged in full at time of purchase. Special order deposits may be higher depending on the scope of the project. A 50% deposit is required on special orders for Open Account customers. Balance due on terms. Payment in full is required on tile lots and slab selected by you at time of selection to ensure that your specific material remains available for you. At time of payment, material will be sequestered in your name.
