

To upload files to our ftp server you can use one of two methods;

Web Browser
FTP client application

WEB BROWSER:

To connect via the web portal of our ftp server you can point your favorite browser to:

<http://ftp.coloredgevisual.com>

User name: [REDACTED]

Password: [REDACTED]

On the left hand side of the browser after it logs you in you have a few options - create folder, upload files, etc.

By using the dropdown menu on the left you can select the number of files you want to upload, select [BROWSE] to navigate to those files on your computer, server, etc. and begin the upload.

FTP CLIENT:

Using your favorite ftp application (Fetch, Cute FTP, etc) enter ftp.coloredgevisual.com as the hostname. The username (login name) is ftp and the password is pbftp .

Depending on the application you are using you can either select the files or drag and drop them.

Once the file has been completely copied onto our site, please email the following 2 email addresses with the file name & desired output.

[REDACTED]
