Benches in White Oak	2	\$ 3,000.00	\$ 6,000.00

[REDACTED]

We have offered three different prices using three different urban lumber options, all of which will offer very good weather resistance. We will sand these tables to a medium high polish, and then finish them with a natural tung oil finish which we feel is the most appropriate for the application.

All of the surfaces will be 1.5" thick, and we will use stainless steel adjustable joinery to allow for the variation of climate in this environment.

Please note that these prices are based on our existing design, and do not include any custom design fees (should you require custom design, please just let us know). nor do these prices include shipping, packing or any transit related fees.

Sincerely yours,

Sharon Burdett
