**Messages****MARGIN ACCOUNTS**

Securities and other assets in your account are the firm's collateral for any margin loan made to you. If the securities and other assets in your account decline in value, so does the value of the collateral supporting your loan, and, as a result, the firm can take action, such as issue a margin call and/or sell securities or other assets in any of your accounts held with the member, in order to maintain the required equity in the account. It is important that you fully understand the risks involved in trading securities on margin. These risks include the following:

- You can lose more funds than you deposit in the margin account.
- The firm can force the sale of securities or other assets in your account(s).
- The firm can sell your securities or other assets without contacting you.
- You are not entitled to choose which securities or other assets in your account(s) are liquidated or sold to meet a margin call.
- The firm can increase its "house" maintenance margin requirements at any time and is not required to provide you advance written notice.
- You are not entitled to an extension of time on a margin call.

Further, if you have a margin account with us, as permitted by law we may use certain securities in your account for, among other things, settling short sales and lending the securities for short sales, and as a result may receive compensation in connection therewith.

**LARGE TRADE REPORTING**

The U.S. Securities and Exchange Commission ("SEC") Rule 13h-1 Large Trader Reporting System requires U.S. and non-U.S. market participants who meet the definition of "Large Trader" as of October 3, 2011, or at any point thereafter to:

- (i) File an electronic Form 13H with the SEC (via EDGAR) to obtain a large trader identification number (LTID); and
- (ii) Promptly disclose to U.S. broker-dealers that execute trades or carry accounts for the Large Trader, their LTIDs and the accounts to which the LTIDs apply.

\*A "Large Trader" is a legal entity or natural person who, directly or indirectly, through the exercise of investment discretion, effects transactions in NMS securities that equal or exceed either: (i) 2 million shares or \$20 million during any calendar day; OR (ii) 20 million shares or \$200 million over any calendar month.

If you are a "Large Trader" and have completed a Form 13H, you will receive an LTID from the SEC. In order to ensure that LTID's are captured and reported as required under the Rule, you are required to promptly report your LTID to your broker and identify each account to which the LTID should be applied. If you have any questions, please call the appropriate number on the front of this statement.

**J.P. MORGAN SECURITIES LLC NET CAPITAL REQUIREMENTS**

**NON RECEIPT OF CHECKS OR STOCKS**

Please report any difference or non-receipt of checks or stocks, indicated as delivered to you, to Client Services Operations at 800-634-1428; or write to Client Services Operations at J.P. Morgan Securities LLC, Four Chase Metrotech Center, Brooklyn, N.Y. 11245-0001

**MARGIN ACCOUNT**

If you are a customer with a margin account, you consent to JP Morgan's right (to the extent permitted by applicable law) to use, lend or pledge any securities held by J.P. Morgan Securities LLC in your margin account. In certain circumstances, such loans or other use may limit, in whole or in part, your ability to receive dividends directly from the issuing company and/or your right to exercise voting and other attendant rights of ownership with respect to the loaned, sold or pledged securities. Such circumstances include, but are not limited to, loans of securities that you own in your margin account that continue over record dates for voting purposes and ex-dividend dates for dividend distributions. If you do not receive dividends directly from the issuing company, you may receive payments-in-lieu of dividends which could cause you to lose the benefit of the preferential tax treatment accorded to dividends.

If you carry a margin balance, your account statement will reflect the current annual interest rate applicable to your margin loan. Please review the current rate, as under certain circumstances the rate may change without advance notice. If you have any questions or concerns about your current interest rate, please speak to your Financial Advisor.

For questions, please contact us using the information provided on the front of this statement.

**EXTENDED HOURS TRADING RISK DISCLOSURE**

You should consider the following points before engaging in extended hours trading. "Extended hours trading" means trading outside of "regular trading hours." "Regular trading hours" generally means the time between 9:30 a.m. and 4:00 p.m. Eastern Standard Time.

**Risk of Lower Liquidity.** Liquidity refers to the ability of market participants to buy and sell securities. Generally, the more orders that are available in a market, the greater the liquidity. Liquidity is important because with greater liquidity it is easier for investors to buy or sell securities, and as a result, investors are more likely to pay or receive a competitive price for securities purchased or sold. There may be lower liquidity in extended hours trading as compared to regular market hours. As a result, your order may only be partially executed, or not at all.

**Risk of Higher Volatility.** Volatility refers to the changes in price that securities undergo when trading. Generally, the higher the volatility of a security, the greater its price swings. There may be greater volatility in extended hours trading than in regular market hours. As a result, your order may only be partially executed, or not at all, or you may receive an inferior price in extended hours trading than you would during regular market hours.

**Risk of Changing Prices.** The prices of securities traded in extended hours trading may not reflect the prices either at the end of regular market hours, or upon the opening the next morning. As a result, you may receive an inferior price in extended hours trading than you would during regular market hours.

**Risk of Unlinked Markets.** Depending on the extended hours trading system or the time of day, the prices displayed on a particular extended hours trading system may not reflect the prices in other concurrently operating extended hours trading systems dealing in the same securities. Accordingly, you may receive an inferior price in one extended hours trading system than you would in another extended hours trading system.

**Risk of News Announcements.** Normally, issuers make news announcements that may affect the price of their securities after regular trading hours. Similarly, important financial information is frequently announced outside of regular trading hours. In extended hours trading, these announcements may occur during trading, and if combined with lower liquidity and higher volatility, may cause an exaggerated and unsustainable effect on the price of a security.

**Risk of Wider Spreads.** The spread refers to the difference in price between what you can buy a security for and what you can sell it for. Lower liquidity and higher volatility in extended hours trading may result in wider than normal spreads for a particular security.

For questions, please contact us using the information provided on the front of this statement.

**Important Information about Your Account Statement(s)**

Unless otherwise indicated, accounts are held at J.P. Morgan Securities, LLC (JPMS), member FINRA and SIPC. JPMS is not a member of the Federal Deposit Insurance Corporation (FDIC).

**NON-DISCRETIONARY:** JPMS brokerage accounts are non-discretionary and all investment decisions are made by the client. For managed accounts, discretionary services are provided by JPMS, an affiliate or an authorized third party.

**ACCOUNT PROTECTION:** As a member of the Securities Investor Protection Corporation (SIPC), JPMS provides account protection for the net equity of a customer's funds and securities positions. SIPC provides \$500,000 of primary net equity protection, including \$250,000 for claims for cash (SIPC Coverage). Account protection applies when a SIPC member firm fails financially and is unable to meet its obligations to its securities customers, but does not apply to losses from the rise or fall in the market value of investments or to SIPC ineligible assets such as futures, options on futures, foreign exchange transactions, or any investment contracts that are not registered as securities or deposit account balances. For more information about SIPC Coverage, including the SIPC Brochure, visit [www.sipc.org](http://www.sipc.org) (follow the link to How SIPC Protects Investors) or call SIPC at (202) 371-8300.

**CUSTODY:** JPMS carries your account and acts as your custodian for funds and securities received, which have been deposited directly with us or received as a result of transactions we process for your account. Inquiries regarding your Statement may be directed to JPMS at (347) 643-9953

As used in the course of these statements, "J.P. Morgan" is the global brand name for JPMorgan Chase & Co. and its subsidiaries and affiliates worldwide.

**MARKET PRICES:** The market value of your holdings is as of the last business day of the statement period or the last available price. Prices for determining market values represent estimates. These estimates are obtained from multiple sources deemed to be reliable. This information is not guaranteed for accuracy and is furnished for the exclusive use of the client.

J.P. Morgan makes no representation, warranty or guarantee, express or implied, that any quoted value represents the actual terms at which securities could be bought or sold or new transactions could be entered into, or the actual terms on which existing transactions or securities could be liquidated. Such values are only indicative.

**ESTIMATED PRICING AND COST BASIS:** Certain assets, including but not limited to, pooled and private investments, non-publicly traded and infrequently traded securities, derivatives, partnership interests and tangible assets are generally illiquid, the value of such assets may have been provided to us by third parties who may not be independent of the issuer or manager. Such information is reflected as of the last date provided to us, and is not independently verified.

Pricing estimates may be based on bids, prices within the bid offer spread, closing prices or matrix methodology that uses data relating to other securities whose prices are more ascertainable to produce a hypothetical price based on the estimated yield spread relationship between the securities. Pricing estimates do not constitute bids for any securities. Actual prices realized at sale may be more or less than those shown on your statement.

**Unpriced Direct Participation Program (DPP) and Real Estate Investment (REIT) Securities:** DPP and REIT securities are generally illiquid and the value of the security will, generally, be different

from its purchase price. Accurate valuation information is not available. The total cost basis for each security position and the unrealized gain/loss are provided solely as a general indication of performance and should not be used for tax purposes or otherwise relied upon without the assistance of your tax advisor. With respect to security positions received into your account, cost basis information, if any, has been provided by you. Further information is available upon request.

You may hold positions where the original cost basis has been adjusted to reflect amortization or accretion.

For **Regulated Investment Companies or Dividend Reinvestment Plan** sales, for which the average price method has been chosen, positions are closed out on a First-In-First-Out (FIFO) basis.

These statements are not official documents for income tax reporting purposes and should not be relied upon for such purposes, including determination of income, cost basis, amortization or accretion, or gain/loss. Such information, which may be inaccurate, incomplete or subject to updating, should be confirmed with your records and your tax advisor.

**DIVIDEND INCOME:** Dividends credited to your account may include capital gains, non-taxable dividends and/or dividends on foreign stock. You may wish to consult your tax advisor with regard to your tax liability on these dividends.

**ESTIMATED ANNUAL INCOME AND ESTIMATED YIELD:** Estimated Annual Income (EAI) is calculated by multiplying either the current coupon rate or an estimated annual dividend (generally calculated by annualizing the most recent regular cash dividend) by the quantity of the security held. For balances other than sweep program balances, Estimated Yield (EY) is calculated by dividing EAI by the market value of the security. These figures are estimates based on mathematical calculations using data obtained from outside sources. Because prices of securities, coupon and dividend rates are subject to change at any time, these estimates should not be relied upon exclusively for making investment, trading, or tax decisions. Because different asset types (e.g. equities versus fixed income securities) tend to have different investment characteristics, these estimates should not be compared across asset types. These calculations are for informational purposes only and are not a projection or guarantee of future returns. Additionally, please note that EAI and EY for certain types of Securities might include Return of Principal or Capital Gains in which case the EAI and EY would be overstated. There is no guarantee that your investments will actually generate EAI or EY presented. Actual income and yield might be higher or lower. Please contact us for additional information.

**IMPORTANT INFORMATION REGARDING AUCTION RATE SECURITIES (ARS):** ARS are debt or preferred securities with an interest or dividend rate reset periodically in an auction. Although there may be daily, weekly and monthly resets, there is no guarantee that there will be liquidity. If there are not enough bids at an auction to redeem the securities available for sale, the result may be a failed auction. In the event of a failed auction, there is no assurance that a secondary market will develop or that the security will trade at par or any other price reflected on statements and online. Accordingly, investors should not rely on pricing information appearing in their statements or online with respect to ARS. When J.P. Morgan is unable to obtain a price from an internal or outside source for a particular ARS, the price column on your statement will indicate "unpriced".

A description of J.P. Morgan's practices and procedures regarding ARS is available at [www.jpmorgan.com/muniars](http://www.jpmorgan.com/muniars).

For questions, please contact us using the information provided on the front of this statement.

STATEMENT SUMMARY	BROKERAGE	IMPORTANT INFORMATION
-------------------	-----------	-----------------------

**VALUATIONS OF OVER-THE-COUNTER DERIVATIVE TRANSACTIONS:** Valuations of over-the-counter derivative transactions, including certain derivatives-related deposit products, have been prepared on a mid-market basis. These valuations are sourced from the various issuers of the securities, affiliates or they are sourced from a third party valuation provider. J.P. Morgan expressly disclaims any responsibility for (1) the accuracy of the models or estimates used in deriving the valuations, (2) any errors or omissions in computing or disseminating the valuations, and (3) any uses to which the valuations are put. Valuations are provided for information purposes only and are intended solely for your own use. Please refer to the trade confirmation for details of each transaction.

**UNPRICED SECURITIES:** When we are unable to obtain a current value from an internal or outside source for a particular security, the price column on your statement will indicate "Unpriced." Although such securities may have value, please note that the value of a security indicated as "Unpriced" will not be included in your overall current market value as reflected on the statement.

**RESTRICTED SECURITIES:** Restricted Securities (typically noted as "Restricted" or "RSTD" in the security description) have not been registered under the Securities Act of 1933 and may not be "freely traded." Since restricted securities are subject to certain restrictions which may render them illiquid or less liquid than freely-tradable shares, there can be no assurance a secondary market exists. While we typically use the value of the registered/unrestricted security of the same issuer and same class for statement (and other) reporting purposes, the price realizable in a sale of the securities may be less than the "Market Value" indicated and could be zero. No attempt has been made to independently value the specific security subject to its restriction. Additionally, inclusion of pricing of these holdings will result in the aggregated value of your portfolio as reflected on this report being overstated by an amount equal to the difference (if any) between the value of the freely-traded underlying security and the actual value of your restricted shares. For additional information on pricing, please see the "Market Prices" paragraph.
