MARGIN ACCOUNTS

Securities and other assets in your account are the firm's collateral for any margin loan made to you. If the securities and other assets in your account decline in value, so does the value of the collateral supporting your loan, and, as a result, the firm can take action, such as issue a margin call and/or sell securities or other assets in any of your accounts held with the member, in order to maintain the required equity in the account. It is important that you fully understand the risks involved in trading securities on margin. These risks include the following:

- You can lose more funds than you deposit in the margin account.
- The firm can force the sale of securities or other assets in your account(s).
- The firm can sell your securities or other assets without contacting you.
- You are not entitled to choose which securities or other assets in your account(s) are liquidated or sold to meet a margin call.
- The firm can increase its "house" maintenance margin requirements at any time and is not required to provide you advance written notice.
- You are not entitled to an extension of time on a margin call.

Further, if you have a margin account with us, as permitted by law we may use certain securities in your account for, among other things, settling short sales and lending the securities for short sales, and as a result may receive compensation in connection therewith.

LARGE TRADE REPORTING

The U.S. Securities and Exchange Commission ("SEC") Rule 13h-1 Large Trader Reporting System requires U.S. and non-U.S. market participants who meet the definition of "Large Trader" as of October 3, 2011, or at any point thereafter to:

- (i) File an electronic Form 13H with the SEC (via EDGAR) to obtain a large trader identification number (LTID); and
- (ii) Promptly disclose to U.S. broker-dealers that execute trades or carry accounts for the Large Trader, their LTIDs and the accounts to which the LTIDs apply.

*A "Large Trader" is a legal entity or natural person who, directly or indirectly, through the exercise of investment discretion, effects transactions in NMS securities that equal or exceed either: (i) 2 million shares or \$20 million during any calendar day; OR (ii) 20 million shares or \$200 million over any calendar month.

If you are a "Large Trader" and have completed a Form 13H, you will receive an LTID from the SEC. In order to ensure that LTID's are captured and reported as required under the Rule, you are required to promptly report your LTID to your broker and identify each account to which the LTID should be applied. If you have any questions, please call the appropriate number on the front of this statement.

Messages (continued)**COMPENSATION RECEIVED IN CONNECTION WITH MUTUAL FUND TRANSACTIONS**

Advisors, distributors or other affiliates of certain mutual funds (which include money market and non-money market funds) may enter into arrangements to pay brokers that distribute their shares for administrative, technological or other services, including marketing and other support services provided to such funds or their affiliates. These fees, commonly referred to as "revenue sharing," are separate from, and in addition to, any shareholder servicing or distribution fees that a mutual fund pays out of its own assets pursuant to its Rule 12b-1 plan and other expenses which are described in a fund's prospectus fee table. Revenue sharing fees are paid out of the assets of the fund affiliate and not from the fund's assets and, therefore, have no impact on a fund's expense ratio or yield.

J.P. Morgan Securities LLC ("JPMS") receives compensation from fund families or their affiliates for providing certain administrative and clearing services. These payments are calculated either based on a percentage of the average dollar value of the fund assets held by JPMS in customer accounts or based on the number of mutual fund positions in the accounts. These fees may be paid from fund assets or may be subsidized in whole or in part by the advisor, distributor or other affiliates of the fund through revenue sharing. Revenue sharing payments are negotiated separately with each fund family and not all fund families pay the same amount or pay according to the same formula. There is, therefore, a potential conflict of interest in the form of an additional financial incentive to J.P. Morgan for making available to customer mutual funds whose affiliates enter into revenue sharing arrangements.

For the administrative and clearing services noted above, JPMS may receive revenue sharing payments of up to 0.50% per year or the average daily assets of fund shares carried in customer's accounts at JPMS and/or a rate of up to \$21 per year per mutual fund position in each account, as applicable. To establish such arrangements with a fund company, JPMS has either entered into an agreement directly with the fund company or has entered into an agreement with a service provider which, in turn, has entered into an agreement directly with the fund company. Please note that the actual amount received by JPMS may be subject to periodic waiver by fund families and such waivers may reduce the actual amount received by JPMS. Funds whose affiliates do not make such revenue sharing payments to JPMS are generally not offered or recommended by JPMS, and in some cases, have higher returns or yields than funds whose affiliates do make revenue sharing payment. Compensation JPMS receives under these arrangements may be passed on to affiliates or non-affiliates of JPMS.

In addition to these payments, JPMS may receive additional revenue sharing payments from certain fund families. Most funds offered by JPMS make these additional revenue sharing payments based upon the percentage of a client's total purchase amount in one of these funds. Percentage payments to JPMS generally range from 0.08% to 0.25%. If, for example, a client invested \$10,000 in a fund that paid 0.25%, the fund's advisor, distributor or other entity would pay JPMS \$25. In addition, for any fund held in a client's account, and for as long as the client holds that fund, JPMS will receive an additional payment, paid quarterly, as a percentage per year of the amount held. Percentage payments generally range from 0.02% to 0.08%. For example, on a \$10,000 holding, 0.08% is \$8. Additionally, JPMS may receive an annual payment of up to \$290,000. Lastly, JPMS may be reimbursed by or on behalf of mutual funds for expenses incurred for various sales meetings, seminars and conferences held in the normal course of business. Financial Advisors do not receive additional compensation from these revenue sharing payments made to JPMS.

The amounts listed above have been updated from those previously provided to you. The prospectus and Statement of Additional Information of mutual funds available through J.P. Morgan or your broker contain information regarding revenue sharing payments made by affiliates of the fund companies. In addition, information regarding revenue sharing can be found at www.Chase.com or related websites.

TAX REPORTING

If any information regarding 2018 interest, dividends, miscellaneous income, gross proceeds or original issue discount is required to be reported to the IRS for this account, a Consolidated Form 1099 will be mailed to you no later than February 15, 2019, or a form 1042S by March 15, 2019. While we verify the information reported, reclassification of income by an issuer, corporate actions or other adjustments may necessitate a corrected Consolidated Form 1099.

IMPORTANT NOTICE TO CLIENTS WHO ARE EXECUTIVE OFFICERS, DIRECTORS AND CONTROL OWNERS OF U.S. PUBLIC COMPANIES

If you are an executive officer, director or greater than 10% owner of a U.S. public company(a "Section 16 Insider"), you must make this status known to your Financial Advisor. This disclosure must be made for each U.S. public company for which you are a Section 16 Insider so that transactions that require compliance with federal securities and other laws are handled properly and in accordance with the law. If you are a Section 16 Insider, you should be aware of the following in particular:

- When you open an account or otherwise establish a business relationship with J.P. Morgan Securities ("JPMS") for investment or other financial services involving your or your family's personal assets or any collective investment account in which you own a beneficial interest, you have an affirmative obligation to disclose to JPMS your status as a Section 16 Insider for each U.S. public company for which you have such status.
- Whenever you have a change in status, such as a change of employment or election to or retirement from the board of directors of a U.S. public company, such that you become a Section 16 Insider, you have an affirmative obligation to notify JPMS of your new or changed status. It is important to note that you may be a Section 16 Insider for more than one U.S. public company, and you must notify JPMS of your insider status for each applicable U.S. public company.
- Unless notified otherwise, JPMS will consider that all funds and assets maintained in your or your family's personal accounts are solely your property. Your continued maintenance of an account with JPMS shall constitute your representation that no other person or entity has any interest in your account(s). In addition, you agree that at no time will any funds or assets of the U.S. public company of which you are an affiliate be invested through your account(s).
- Executive officers and directors of U.S. public companies (as well as of non-U.S. public companies whose primary trading market is the United States) are ineligible to purchase equity initial public offerings ("IPOs"), and persons participating in equity IPOs are required to represent in writing that their accounts are not owned 25% or more by such an executive officer or director (including persons materially supported by such officers and directors).

Please note that you are a Section 16 Insider if you are required to file Forms 3, 4 or 5 ownership reports with the U.S. Securities and Exchange Commission with respect to your share holdings in a U.S. public company. If you are a Section 16 Insider, you should ask your Financial Advisor about pre-trade clearance and post-trade confirmation delivery options for open market purchase and sale transactions through JPMS, so that you can timely report your transactions to the SEC.

SHORT DEBIT FEE DISCLOSURE

Clients engaging in short sales currently incur fees that are based on a fluctuating rate applied daily to the market value of the securities sold short. These fees, which are in addition to interest charged on any debit balances in your account created in connection with your short positions, are based on (i) the costs and expenses incurred by J.P. Morgan to settle and maintain those transactions, and (ii) service fees in connection with the establishment and/or maintenance of your short positions. Any rate that may be established at the time a short sale settles or established thereafter is not guaranteed or otherwise fixed for any period of time and is subject to change without notice. Rates may vary depending upon market conditions, including the then-prevailing difficulty in the market of borrowing the particular security. The ease or difficulty of borrowing any particular security, and the related cost, may change rapidly and materially and such change is not predictable. Before engaging in short selling, customers should take into account the fees charged on short sales and the risk that those fees may increase rapidly and materially. Customers who maintain short positions are urged to review their account statements and speak with their J.P. Morgan Securities Financial Advisor regularly to monitor the fees being charged. These fees will appear on your account statements.

NON RECEIPT OF CHECKS OR STOCKS

Please report any difference or non-receipt of checks or stocks, indicated as delivered to you, to Client Services Operations at 800-634-1428; or write to Client Services Operations at J.P. Morgan Securities LLC. Four Chase Metrotech Center, Brooklyn, N.Y. 11245-0001

MARGIN ACCOUNT

If you are a customer with a margin account, you consent to JP Morgan's right (to the extent permitted by applicable law) to use, lend or pledge any securities held by J.P. Morgan Securities LLC in your margin account. In certain circumstances, such loans or other use may limit, in whole or in part, your ability to receive dividends directly from the issuing company and/or your right to exercise voting and other attendant rights of ownership with respect to the loaned, sold or pledged securities. Such circumstances include, but are not limited to, loans of securities that you own in your margin account that continue over record dates for voting purposes and ex-dividend dates for dividend distributions. If you do not receive dividends directly from the issuing company, you may receive payments-in-lieu of dividends which could cause you to lose the benefit of the preferential tax treatment accorded to dividends.

If you carry a margin balance, your account statement will reflect the current annual interest rate applicable to your margin loan. Please review the current rate, as under certain circumstances the rate may change without advance notice. If you have any questions or concerns about your current interest rate, please speak to your Financial Advisor.

For questions, please contact us using the information provided on the front of this statement.

EXTENDED HOURS TRADING RISK DISCLOSURE

You should consider the following points before engaging in extended hours trading. "Extended hours trading" means trading outside of "regular trading hours." "Regular trading hours" generally means the time between 9:30 a.m. and 4:00 p.m. Eastern Standard Time.

Risk of Lower Liquidity. Liquidity refers to the ability of market participants to buy and sell securities. Generally, the more orders that are available in a market, the greater the liquidity. Liquidity is important because with greater liquidity it is easier for investors to buy or sell securities, and as a result, investors are more likely to pay or receive a competitive price for securities purchased or sold. There may be lower liquidity in extended hours trading as compared to regular market hours. As a result, your order may only be partially executed, or not at all.

Risk of Higher Volatility. Volatility refers to the changes in price that securities undergo when trading. Generally, the higher the volatility of a security, the greater its price swings. There may be greater volatility in extended hours trading than in regular market hours. As a result, your order may only be partially executed, or not at all, or you may receive an inferior price in extended hours trading than you would during regular market hours.

Risk of Changing Prices. The prices of securities traded in extended hours trading may not reflect the prices either at the end of regular market hours, or upon the opening the next morning. As a result, you may receive an inferior price in extended hours trading than you would during regular market hours.

Risk of Unlinked Markets. Depending on the extended hours trading system or the time of day, the prices displayed on a particular extended hours trading system may not reflect the prices in other concurrently operating extended hours trading systems dealing in the same securities. Accordingly, you may receive an inferior price in one extended hours trading system than you would in another extended hours trading system.

Risk of News Announcements. Normally, issuers make news announcements that may affect the price of their securities after regular trading hours. Similarly, important financial information is frequently announced outside of regular trading hours. In extended hours trading, these announcements may occur during trading, and if combined with lower liquidity and higher volatility, may cause an exaggerated and unsustainable effect on the price of a security.

Risk of Wider Spreads. The spread refers to the difference in price between what you can buy a security for and what you can sell it for. Lower liquidity and higher volatility in extended hours trading may result in wider than normal spreads for a particular security.

STATEMENT SUMMARY	BROKERAGE	IMPORTANT INFORMATION
-------------------	-----------	-----------------------

Important Information about Your Account Statement(s)

Unless otherwise indicated, accounts are held at J.P. Morgan Securities, LLC (JPMS), member FINRA and SIPC. JPMS is not a member of the Federal Deposit Insurance Corporation (FDIC).

NON-DISCRETIONARY: JPMS brokerage accounts are non-discretionary and all investment decisions are made by the client. For managed accounts, discretionary services are provided by JPMS, an affiliate or an authorized third party.

ACCOUNT PROTECTION: As a member of the Securities Investor Protection Corporation (SIPC), JPMS provides account protection for the net equity of a customer's funds and securities positions. SIPC provides \$500,000 of primary net equity protection, including \$250,000 for claims for cash (SIPC Coverage). Account protection applies when a SIPC member firm fails financially and is unable to meet its obligations to its securities customers, but does not apply to losses from the rise or fall in the market value of investments or to SIPC ineligible assets such as futures, options on futures, foreign exchange transactions, or any investment contracts that are not registered as securities or deposit account balances. For more information about SIPC Coverage, including the SIPC Brochure, visit www.sipc.org (follow the link to How SIPC Protects Investors) or call SIPC at (202) 371-8300.

CUSTODY: JPMS carries your account and acts as your custodian for funds and securities received, which have been deposited directly with us or received as a result of transactions we process for your account. Inquiries regarding your Statement may be directed to JPMS at (347) 643-9953

As used in the course of these statements, "J.P. Morgan" is the global brand name for JPMorgan Chase & Co. and its subsidiaries and affiliates worldwide.

MARKET PRICES: The market value of your holdings is as of the last business day of the statement period or the last available price. Prices for determining market values represent estimates. These estimates are obtained from multiple sources deemed to be reliable. This information is not guaranteed for accuracy and is furnished for the exclusive use of the client.

J.P. Morgan makes no representation, warranty or guarantee, express or implied, that any quoted value represents the actual terms at which securities could be bought or sold or new transactions could be entered into, or the actual terms on which existing transactions or securities could be liquidated. Such values are only indicative.

ESTIMATED PRICING AND COST BASIS: Certain assets, including but not limited to, pooled and private investments, non-publicly traded and infrequently traded securities, derivatives, partnership interests and tangible assets are generally illiquid, the value of such assets may have been provided to us by third parties who may not be independent of the issuer or manager. Such information is reflected as of the last date provided to us, and is not independently verified.

Pricing estimates may be based on bids, prices within the bid offer spread, closing prices or matrix methodology that uses data relating to other securities whose prices are more ascertainable to produce a hypothetical price based on the estimated yield spread relationship between the securities. Pricing estimates do not constitute bids for any securities. Actual prices realized at sale may be more or less than those shown on your statement.

Unpriced Direct Participation Program (DPP) and Real Estate Investment (REIT) Securities: DPP and REIT securities are generally illiquid and the value of the security will, generally, be different

from its purchase price. Accurate valuation information is not available. The total cost basis for each security position and the unrealized gain/loss are provided solely as a general indication of performance and should not be used for tax purposes or otherwise relied upon without the assistance of your tax advisor. With respect to security positions received into your account, cost basis information, if any, has been provided by you. Further information is available upon request.

You may hold positions where the original cost basis has been adjusted to reflect amortization or accretion.

For **Regulated Investment Companies or Dividend Reinvestment Plan** sales, for which the average price method has been chosen, positions are closed out on a First-In-First-Out (FIFO) basis.

These statements are not official documents for income tax reporting purposes and should not be relied upon for such purposes, including determination of income, cost basis, amortization or accretion, or gain/loss. Such information, which may be inaccurate, incomplete or subject to updating, should be confirmed with your records and your tax advisor.

DIVIDEND INCOME: Dividends credited to your account may include capital gains, non-taxable dividends and/or dividends on foreign stock. You may wish to consult your tax advisor with regard to your tax liability on these dividends.

ESTIMATED ANNUAL INCOME AND ESTIMATED YIELD: Estimated Annual Income (EAI) is calculated by multiplying either the current coupon rate or an estimated annual dividend (generally calculated by annualizing the most recent regular cash dividend) by the quantity of the security held. For balances other than sweep program balances, Estimated Yield (EY) is calculated by dividing EAI by the market value of the security. These figures are estimates based on mathematical calculations using data obtained from outside sources. Because prices of securities, coupon and dividend rates are subject to change at any time, these estimates should not be relied upon exclusively for making investment, trading, or tax decisions. Because different asset types (e.g. equities versus fixed income securities) tend to have different investment characteristics, these estimates should not be compared across asset types. These calculations are for informational purposes only and are not a projection or guarantee of future returns. Additionally, please note that EAI and EY for certain types of Securities might include Return of Principal or Capital Gains in which case the EAI and EY would be overstated. There is no guarantee that your investments will actually generate EAI or EY presented. Actual income and yield might be higher or lower. Please contact us for additional information.

IMPORTANT INFORMATION REGARDING AUCTION RATE SECURITIES (ARS): ARS are debt or preferred securities with an interest or dividend rate reset periodically in an auction. Although there may be daily, weekly and monthly resets, there is no guarantee that there will be liquidity. If there are not enough bids at an auction to redeem the securities available for sale, the result may be a failed auction. In the event of a failed auction, there is no assurance that a secondary market will develop or that the security will trade at par or any other price reflected on statements and online. Accordingly, investors should not rely on pricing information appearing in their statements or online with respect to ARS. When J.P. Morgan is unable to obtain a price from an internal or outside source for a particular ARS, the price column on your statement will indicate "unpriced".

A description of J.P. Morgan's practices and procedures regarding ARS is available at www.jpmorgan.com/muniars.

For questions, please contact us using the information provided on the front of this statement.

VALUATIONS OF OVER-THE-COUNTER DERIVATIVE TRANSACTIONS: Valuations of over-the-counter derivative transactions, including certain derivatives-related deposit products, have been prepared on a mid-market basis. These valuations are sourced from the various issuers of the securities, affiliates or they are sourced from a third party valuation provider. J.P. Morgan expressly disclaims any responsibility for (1) the accuracy of the models or estimates used in deriving the valuations, (2) any errors or omissions in computing or disseminating the valuations, and (3) any uses to which the valuations are put. Valuations are provided for information purposes only and are intended solely for your own use. Please refer to the trade confirmation for details of each transaction.

UNPRICED SECURITIES: When we are unable to obtain a current value from an internal or outside source for a particular security, the price column on your statement will indicate "Unpriced." Although such securities may have value, please note that the value of a security indicated as "Unpriced" will not be included in your overall current market value as reflected on the statement.

RESTRICTED SECURITIES: Restricted Securities (typically noted as "Restricted" or "RSTD" in the security description) have not been registered under the Securities Act of 1933 and may not be "freely traded." Since restricted securities are subject to certain restrictions which may render them illiquid or less liquid than freely-tradable shares, there can be no assurance a secondary market exists. While we typically use the value of the registered/unrestricted security of the same issuer and same class for statement (and other) reporting purposes, the price realizable in a sale of the securities may be less than the "Market Value" indicated and could be zero. No attempt has been made to independently value the specific security subject to its restriction. Additionally, inclusion of pricing of these holdings will result in the aggregated value of your portfolio as reflected on this report being overstated by an amount equal to the difference (if any) between the value of the freely-traded underlying security and the actual value of your restricted shares. For additional information on pricing, please see the "Market Prices" paragraph.

THIRD PARTY INFORMATION: This statement contains (i) information obtained from multiple direct, indirect, affiliated, unaffiliated, public and proprietary data sources (including, but not limited to identifying information, market data, calculated data, reference data, valuations, ratings, coupon and dividend rates and other fundamental data) and (ii) information which is calculated based upon such information (including but not limited to, market values, Current Yield and Estimated annual income). Although JPMS believes these sources and the sources of market values are reliable, it does not independently review or verify such information and neither JPMS nor any source will have any duty or obligation to verify, correct, complete, or update any such information. Such information is being provided to you with all faults for use entirely at your own risk, without any warranty whatsoever by JPMS, its affiliates or any such source. Neither JPMS or its affiliates nor any such source shall have any liability whatsoever relating to any inaccuracy or lack of timeliness or completeness of such information or any use thereof or for omissions therefrom nor for any lost profits, indirect, special or consequential damages. Moreover, such sources retain exclusive proprietary rights in such information. You may use such information only for your internal use and purposes and not for reuse (other than in connection with the transaction or position for which the information is provided) or retransmission without prior written approval of the source, or for any unlawful or unauthorized purpose.

METHODS OF COMPUTING INTEREST ON DEBIT BALANCES : Interest is charged on a day by day basis for any day that there is a net debit balance in your overall account. The calculation is made on a 360-day basis at the rate or rates shown on the statement. Interest rates may be changed from time to time with fluctuating money market rates or for other reasons.

CUSTOMER FREE CREDIT BALANCES: For accounts that are held at JPMS, customer free credit balances may be used in this firm's business subject to the limitation of 17CFR Section 240.15c3-3 under the Securities Exchange Act of 1934.
