Great! Would it be possible to send me a photo of the pink skin you have so I can get a sense of the shade of pink? I don't have any drawings, but will work on dimensions for the desk. I would like to do it the same style as the Wine Shagreen desk that you have a photo of on your website, with a width of 45".
I'm currently out of town, but would love to come meet with you when I return to discuss options for the backgammon boards!
Thank you for your quick response!

Yes we can help you with both. I have a few pink skins leftover from a job you can look at for sampling. We can certainly help you with this. The skins take approx. 40 days to receive if not in stock. We can also help with custom Backgammon boards as well. Let me know if you have any drawings we can look over for the desk so that we can work out an estimate for you.

Thanks,

Victor Guarneri

interest: Hello! I'm an interior designer based in NYC. I have a client who is asking for a pink shagreen desk for one of his houses I'm working on. I would love to discuss this project with you! I'm also looking to make custom made backgammon boards for myself and wondering if you can also help me with this project!
