Hi [REDACTED],

We know that Uber has changed the way you move around town. Now we want to change the way you move *things*.

As a thank-you for being one of our top riders, we wanted to extend complimentary access to our newest product, [UberRUSH](#), which allows you to request a messenger with the push of a button.

We've added five FREE UberRUSH pick-ups to your account.
(valid until May 31st at 11:59pm)

How it works: This offer has already been added to your account, so simply request an UberRUSH messenger to the pick-up location, contact your messenger with instructions, and then watch in real-time as your delivery makes its way to the destination.

For more information about UberRUSH, check out our blog post [here](#). If you ever have any questions or comments, please always feel free to reach us at supportNY@uber.com.

Uber on!
