Wow-that's big! I have linen tablecloths in that sort of size, but would need to inquire for something Chinese and embroidered and that big. I will keep this in mind. If a smaller size could work, let me know.

Thanks,

Susan

Hello Susan,

Thank you for the information, is it possible to get a 15 x 9 foot piece?

Hello Karyna,

After speaking with you yesterday, it occurred to me that I have something on my website which might be right for what you are planning, and is an extraordinary piece. It is the silk Chinese 1920's bullfighter shawl which is on a black ground. It is very rare, in excellent condition, and quite colorful. The embroidery is superb. It is on my website in detail,

[REDACTED]

These shawls were used in both dress and home interiors-on pianos, tables, etc. Take a look at it. And email me back if its something of interest.

Regards,

Susan
