## CloudOn Joins Dropbox!

Three years ago, CloudOn launched its iPad application to bring productivity to mobile devices. It is with deep gratitude I thank you for making it one of the most successful productivity apps in the App Store.

As we start 2015, I am thrilled to share that we are joining the Dropbox team to continue to fulfill our vision ([link to announcement](#)). Our teams share a common goal of giving people the freedom to work the way they want, wherever they want, and I look forward to the new products we will bring you.

As part of this transition, we are making some changes to the CloudOn service:

1. As of today, no new accounts can be created on CloudOn
2. As of March 15, 2015, the CloudOn app and service will no longer be available

We are sorry for any inconvenience caused by the discontinuation of our service on March 15, 2015 and would like to bring you the following offer, which can be redeemed prior to that date:

### Get extra Dropbox storage

Add an extra 1 GB to your Dropbox account, for free.

### Do more with Dropbox Pro \*

Upgrade to a Dropbox Pro account and receive 3 months free to get 1 TB (1,000 GB) of space and powerful sharing options.

[Redeem your storage](#)

[Upgrade your Dropbox](#)

We are grateful for your support and look forward to serving you from Dropbox as you work with your documents across all your devices and teams.

Here's wishing you a very happy and productive 2015!

Warmest regards,

Milind & CloudOn Team

\* Offer only available to new Dropbox Pro customers.
