Subject: GPR position Available in NY

Date: Thu, 29 Jan 2015 16:07:19 +0000

Importance: high

Good morning all

The General Practice Residency at Brookdale Hospital has several available a General Practice Resident positions and we are interested in academically and clinically competent candidates to fill these positions. We noticed that you didn't match in the application process and are reaching out to you to see if you would like to apply to this program. The Brookdale General Practice Residency program was recently surveyed by the ADA Council On Dental Accreditation (CODA) and found to have no recommendations and will be fully accredited for the next 7 years. This program is located in Brooklyn, NY with a high volume of patients who are in need of your care. We have a strong didactic component that will prepare you, for not only the care of the normal healthy patient, but also for the care of medically compromised and developmentally disabled patients. The one year experience at this institution will prepare you for the years ahead in practice. Please contact Jennifer Nimako [REDACTED], our residency coordinator and forward to her an official pass application (a CV, 3 letters of recommendation, a 2x2 photograph (a jpeg pic will do for now), official board scores and official transcripts from both dental and undergraduate schools) . You can do this by adding Brookdale Hospital on your pass site GPR 588. Looking forward to your response. [If you have already post-matched kindly inform me of that as well.](#)

Thanks for your time,

Jessica Figueroa DDS
