**Newly Discovered Soft Tissue Reflexes
Stop Craniofacial and TMD Pain, Headaches, Trapezius Pain, Clicking
Jaws,
Unresolved Dental Pain, and
Even Sleep Apnea ON THE SPOT, For Good, in Many Patients!**

Save \$700 on the LIVE Action Class before August 9, 2016!
DVDs Also Available!

Dear Doctor,

Previously unknown simple, soft tissue reflexes have helped thousands of difficult, non responsive patients to get rid of chronic pain, including craniofacial , dental, and TMD pain. These Pain Neutralization Techniques have enormous application for many of the dental patients you see every day.

Many Cases of

- Temporomandibular Joint Dysfunction,
- unexplained dental pain with no pathology,
- post surgical dental and facial pain, following root canals, extractions, fillings and other dental work,
- headaches,
- neck pain,
- trapezius pain,
- and even clicking jaws and sleep apnea **may actually be due to soft tissue disturbances in the masseter and facial muscles.**

Using simple, easily learned techniques on the muscles and tendons of the face, these soft tissue dysfunctions can be demonstrated and in many case eliminated in seconds. This is all done without devices, appliances, splints, needles, drugs or any thing other than light pressure on various muscles and tendons which triggers soft tissue reflexes. You can EASILY learn these in a weekend.

We can very often demonstrate immediate improvement, on the spot, in even long term, chronic pain that's decades old. (Not in every patient, of course, but in a surprisingly large number of cases.)

For D.D.S.s, M.D.s, D.O.s, N.D.s, L.Acs, D.C.s, P.T.s, etc

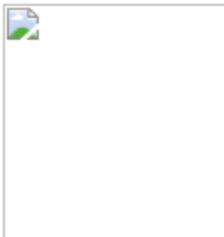

**100% Money Back Guarantee, No Questions Asked!
Details below!**

Early Registration Special: Save \$700 by July 28, 2016!

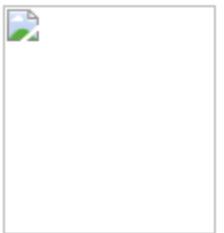

AND you can even pay in 6 monthly payments.
First payment not for 30 days!

Live class October 15-16, 2016. Denver, CO.

DVDs also now available.

"Yesterday Dr. Kaufman worked on my jaw which has been clicking for 10 years. ALL palpatory pain is gone, 100% clear, nothing....And it hasn't cracked since yesterday. It previously cracked many times a day. **One year later: the problem never returned.**" Lisa Howie, LMT Aspen, CO.

"I had right lower second molar tooth pain for 40 years. I had a history of chronic TMJ for 2 years. In about 3 minutes using **the Bone Brain Technique** the palpatory jaw pain was **gone**, and the jaw felt much more balanced (my bite was changed)."

"Since a car accident in 1989 I have had chronic dull ache, numbness from the left mid trap, left scapula, left forearm and numbness in the left 3rd-5th fingers. Range of motion of the left arm abduction was restricted depending upon how much use it was put through.

"Dr. Kaufman was able to increase my left shoulder abduction range to about 95%, in 2-3 minutes. More of his techniques further reduced the chronic ache and

pain in the left scapula and left mid trap to about 90% improvement." **Claire Li, [REDACTED]. Glen Cove, New York**

"I treated a 45 y/o medical doctor with a severe TMJ syndrome, which started after a shelf dropped on her head. Though she went to see several specialists, she gained no relief. She came for 5 sessions and I applied your cervical and TMJ treatments. She recovered completely, regaining full jaw ROM, stopped clenching during sleep, and felt no pain during the day.

" I saw a 52 year old patient came to my office complaining of inability to open his mouth due to sharp TMJ pain on his right side. He also complained about severe right temporal headache, for which he tried to use a variety of drugs without any improvement. His condition was getting worse daily and he had been like this about 6 months when I saw him for the first time.

"I treated him once a week only as he was too busy to show up more frequently. After about 5 sessions he was almost symptom free!!! Taking into account all the experts he went to and the amounts of tests and meds he took - its pretty remarkable." **Ran Kalif, L.Ac. Tel Aviv, Israel**

"I've had jaw pain (TMJ) for over 30 years. 2 broken jaws (mandible fractures) 2 surgeries, 3+ months of the denture and still lots of pain. After 2 minutes of treatment, my TMJ feels 50% better!"
Stephen Irestone, D.C., Burnsville, MN

"I had Plantar Fascitis pain for 4 months. Dr. Kaufman treated me using the Grid Technique. The pain reduced to almost imperceptible. Kudos for PNT." **Dale Ruemping, D.D.S., Seattle, WA**

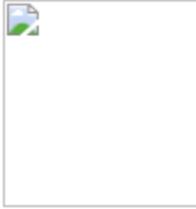

"I've been doing the Deep Tendon Brain Reflexes on myself. The burning pain in my back which I've had for 30 years is **GONE!** I've had jaw misalignment for 35 years. My jaw feels amazing, like the lights came on!" **Linda Fickes, D.C. Honolulu, Hawaii.**

Many patients have sleep apnea- more than 50% can't tolerate C-PAP machines.

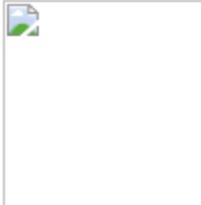

Many can't tolerate dental splints. We've developed a simple soft tissue procedure that may be effective by itself, or as an adjunct to other

techniques.

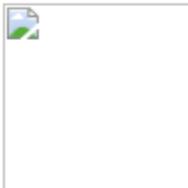

Sleep Apnea in 3 Patients- Gone!

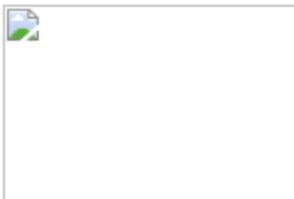

Dr Roland Fuschelberger, [REDACTED], who regularly comes from Austria to attend our live classes, reported on 3 cases of sleep apnea that disappeared after using our Sleep Apnea Brain Reflex Protocol!
We'll teach you the Sleep Apnea protocol in October!

Also Cindy Mikelson, L.Ac, Santa Ynez, Ca., wrote: "I have sleep apnea and snore. It wakes me 6 times a night. It's a big problem because I have tenacious insomnia from a R brain injury which I sustained 34 years ago. I'm an acupuncturist and have tried needling myself which helps but takes multiple treatments fairly regularly. Dr. Kaufman treated me yesterday. According to my sleep partner I did not snore last night!" **Cindy Mikelson, L.Ac, Santa Ynez, Ca.**

"40 years ago, a ski injury caused right jaw clicking and discomfort in the right masseter. Dr. Kaufman reduced the intensity of the clicking, and then eliminated palpatory pain in the masseters that has been persistent all of the past 40 years." **Sam Simpson, D.C. Gibsons, B.C. Canada**

"I was at my massage therapist, getting some routine work done, and my masseuse looked terrible. She had a lot of facial droop, and when I asked her about it, she told me she had had some bad dental work done. The dentist had most likely clipped a nerve, or something along those lines, and had caused effects similar to facial numbing that she still had two weeks later.

"I thought that the dentist had most likely clipped a nerve and aggravated some of the other facial nerves. I treated her using P.N.T. I spent about 15-20 minutes on both sides of her face. The next morning I got an email from her, saying she was about 90% better, had complete use over all of her facial muscles, the tone had been restored, the droopiness was gone- the remaining 10% came back over a 10 day period. When I saw her for my next massage, she was perfectly fine." **Shane Conrad, D.C. Colorado Springs, CO.**

"I've had thoracic burning pain for 38 years. It gets relieved by weekly adjustments but always returns within minutes. Today, after a P.N.T. Sclerotome Treatment™, I had the most profound relief I've experienced. This includes better posture, relaxation, and easier breathing.

Tinnitus is about a tough to treat problem as exists. It is about as much fun treating as having a tooth pulled. Yet on 2 occasions, using the mandibular-maxillary technique, the patients remarked on great improvement. That probably approaches my previous 30+ year total. Oh yes, the Mandibular reflex also alleviates most trap pain, and just about every time. It puts in the hand of the drugless clinician, a potent weapon against head and neck problems that is disproportional to any effort extended.

"Also, I've used the Kaufman Epicritic Protocol on 12 patients with dental pain, who were told to have a root canal. In all 12 cases the dental pain disappeared rapidly, and the root canal procedure was not needed." **Steven Lavitan, D.C., L.Ac. former columnist, Dynamic Chiropractic. Paramus, NJ**

As Seen at the American College for Advancement in Medicine, the International College of Integrative Medicine, Dr Wright's Nutrition and Healing Newsletter, Second Opinion Newsletter, etc. DVDs also available!

P.N.T. is so remarkably effective that Dr. Wright has devoted not just one but 2 issues to it!

Jonathan Wright, M.D. for over 30 years has been one of the leading doctors and pioneers in Holistic Medicine. He's authored 14 best selling books on nutrition and natural medicine, selling over 1.5 million copies. He's a Harvard and University of Michigan Graduate.

His newsletter, Nutrition and Healing, reaches over 130,000 subscribers and another 100,000 online readers. He's published not just one but two articles on the phenomenal effects of the Pain Neutralization Techniques™.

Here's the link to the FANTASTIC Nutrition and Healing Newsletter article on Pain Neutralization Technique, by Jonathan Wright, M.D.

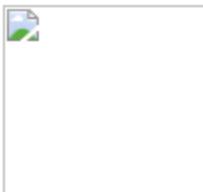

<http://wrightnewsletter.com/2013/05/22/eliminate-chronic-pain-in-minutes/>

AND the amazing brand new article on P.N.T. by Dr. Wright in the Feb, 2014 issue! : 

Pain Management M.D. Stops Even Severe Pain From Bone Cancer and R.S.D. on Many Patients, On the Spot, Using Only P.N.T. and P.N.T. Brain Technique Reflexes™!

My friend, long time P.N.T. student and pain management M.D. David Walsh was at the amazing October Pain Elimination class. After the class he treated a patient with an unusable, dystrophic hand. The patient's hand was shriveled. It was ice cold from impaired circulation. This is known as a claw hand and is due to a nerve injury.

In this case the patient had had multiple spinal surgeries and was in severe pain in her hand, back, and head. She had Complex Regional Pain Syndrome, the disorder formerly known as Reflex Sympathetic Dystrophy (RSD).

“I had a patient with a shriveled, claw hand (a dystrophic hand)-her hand was shriveled and ice cold, and extremely painful. She had severe back pain. She also had a severe headache. **She had Complex Regional Pain Syndrome (CRPS -1) (R.S.D.) .**

“She'd had cervical AND lumbar spinal surgery.

“I did the P.N.T. Brain Reflexes™ and within 5 seconds her hand straightened out of the claw position, and it warmed up. You could see the veins and arteries expanding, and blood coming back to her hand. Her pain disappeared in seconds.

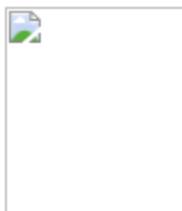

“You should've seen her smile. She had so much relief from pain, she fell asleep in her wheel chair (after the Brain Reflex™ treatment).

“I saw another female patient with lung cancer. She had severe pain from bone metastases to the spine. She had screws in her spine from surgery. Her metastases were so severe that the screws were falling out because the spine was eaten away by cancer. One of the screws was broken.

“She had such severe pain you could barely touch her. She could hardly move. I did the Brain Reflexes™ on her. Immediately she could move much better. Her pain was GONE! She had a stunning response! That night she was dramatically better. She went from hell to heaven by using the Brain Reflexes™. I was stunned.

“She went home that afternoon- after 4 days in the hospital.” **David Walsh, M.D. Mobile, Al.** Board Certified, Anesthesiology. Board Certified, Pain Management. Board Certified, Pain Medicine. Board Certified, Medical Acupuncture. [You can read Dr. Walsh's full, amazing report, click here.](#) (Please note: Dr Walsh works in a hospital setting and can not accept new patients.)

Here's a report on the Pain Neutralization Technique™ from Robert Jay Rowen, M.D. editor of "Second Opinion Newsletter", June 2008. Dr. Rowen is one of the leading voices in Holistic Medicine. This newsletter has over 50,000 subscribers, doctors and patients!

"Here's a true account of what I and at least 40 other doctors witnessed in Phoenix on 11/07. Had I not seen it, I wouldn't have believed a system based on simple body physiology could take away your pain so quickly.

"40 doctors witnessed several dozen consecutive resolutions or near total relief of chronic pain. Dr. Kaufman's remarkable technique might resolve your chronic pain or even organ dysfunction.

“It's so simple it's astonishing the technique is unknown in medical school and largely unknown even to chiropractors. If you're like the dozens of physicians I witnessed, you'll exclaim, “wow, that's amazing”, or “I just can't believe it.” Here's a “hands on” technique that heals the multitudes, by resetting their nervous system reflexes.” **Robert Jay Rowen, M.D., editor in chief, Second Opinion Newsletter.**

Dr. Rowen devoted not one but 2 issues of the 2nd Opinion newsletter to Pain Neutralization Technique. Your patients will refer like crazy when you show them these articles! [You can read Dr. Rowen's full 2006 Second Opinion article, click here.](#)

And you can read [Dr. Rowen's second startling June, 2008 Second Opinion article, click here.](#)

**30 Years of Severe Lumbar Pain Gone in 3 Minutes!
This Doctor Had Been to the Best Medical Centers in The U.S.
For Many Years With No Relief!**

"I have endured severe, relentless lumbar discomfort for 30 years, as a direct result of an almost fatal MVA in 1985. Much to my dismay, I have undergone a plethora of diagnostic studies, as well as have consulted with a multitude of specialists in the best medical centers throughout the United States.

"After traveling to the October Class from Puerto Rico, Dr. Kaufman was able to completely resolve my discomfort in less than 3 minutes." **Jose L. Lizardi, M.D., Ob-Gyn. Carolina, Puerto Rico**

Dear Doctor,

"Do you see patients in pain? 11 years ago I accidentally triggered a neurological reflex on a patient that immediately turned off severe, chronic pain in her upper trapezius muscle. For good. She'd had this pain for a decade.

"I then tried a similar procedure on another patient that stopped pain in her coccyx. She'd suffered from coccydynia for 2 years since delivering a child. Thousands of doctors have now gotten these results tens of thousands of times.

"I soon developed these techniques into a system, Pain Neutralization Technique™. P.N.T. consistently turns off areas of palpatory pain, and many other symptoms.

"These areas are similar to, but NOT the same as, myofascial trigger points. The P.N.T. procedures affect not just pain and range of motion but often visceral (organ) function. They frequently correct viscerosomatic reflexes and symptoms.

"This is NOT another trigger point or myofascial release technique- the P.N.T. procedures are neurological in nature, not mechanical. They influence far more than "myofascial trigger points", though trigger points are usually eliminated in seconds.

"I've now taught the Pain Neutralization and Sclerotome Techniques to several thousand practitioners, including 100's of medical doctors. Many well known holistic M.D.s have learned P.N.T. You can read their reports below.

"Many pain management specialists and even professors of medicine at medical schools have endorsed P.N.T. These include David Walsh, M.D. of Mobile, Al., John Baird, M.D. of Louisville KY. Eng Huu, M.D. of Bradenton, FL. Emmanuel Stein, M.D. of Norfolk, Va.

"The techniques are so effective and SIMPLE that my office assistant and his wife could do them on kids with phenomenal results, after a couple of

minutes of instruction! Please read their report, below.” Stephen Kaufman, D.C.

Even severe chronic pain often responds!

**Special \$119/night hotel rate at the fabulous
Hilton Garden Inn, Denver Tech Center!**

Much more class Info: www.pain2016.com

At the once a year, LIVE intensive training on October 15-16, 2016, YOU'LL learn how to turn off chronic and acute pain and other symptoms with techniques that take minutes, on many patients. You'll see startling results right before your eyes. No devices, no hard work, NO muscle testing. This is NOT similar to any other technique including Nimmo, myofascial techniques, Travell, etc. Even severe, chronic pain may respond.

This will be a SMALL Mentor style class, strictly limited to about 50 students. There will be many advanced P.N.T. doctors as teaching assistants, so there will be plenty of time for hands on contact!

At each LIVE Pain Elimination Class, we use a projector to clearly show Dr. Kaufman's hands on a big screen- this has met with wild approval! This is like having your own private, LIVE, seminar!

We'll have many advanced P.N.T. doctors to assist during the small group workshops.

The new P.N.T Brain Technique Reflexes™ and the Parasympathetic Tidal Wave Treatment- learn to IMMEDIATELY unleash a flood of profound healing and deep relaxation by lightly stimulating simple points by hand for a few seconds! This will completely change the game in your practice!

NEW FOR 2016: the Sclerotome Deep Pain Patterns™, including the Upper Cervical Sclerotome Technique™, the Brachial Plexus Sclerotome, the Lateral Atlas Sclerotome, the DRAMATIC Respiratory Sclerotome, the Sacroileac Sclerotomes, the Ileocecal Valve Sclerotomes, and much, much more.

NEW! Using the Sclerotome Techniques™ to Lower High Blood Pressure!

NEW! Using the Mandibular Reflex™ to Stop Tinnitus!

We'll have many treatment tables, and LOTS of supervised workshop and hands on time! Catered lunch available Sat. and Sun. at the Hilton! Vegetarian and gluten free options offered!

Special Offer: Register by August 9, 2016 and receive a **\$700 discount, AND \$900 in bonus DVDs!!**

“How to Generate Massive Referrals from M.D.s, Dentists, Psychologists, and Veterinarians!” A 2 DVD set. (Normally sells for \$297) Do you dream of having an all referral practice? Once you learn the Pain Elimination Techniques other professionals will fall all over themselves to refer you patients! M.D.s, dentists, and other professionals have many patients they WANT to refer to you, but they need to be approached in the right way. You'll likely be the only one in your area doing these breakthrough new techniques. Dentists and psychologists can fill your practice! A referral patient is worth much more than people that come in off the street. (Other programs like this have sold for \$597!)

Also if your register early: “PNT for Practice Building” (sells for \$297) – Once you discover how to turn off painful trigger points in seconds, this course will show you how to massively increase your practice by educating your patients! It's not enough to get folks better- proper communication is the single most important factor in having a booming practice in this recession!

PLUS: 3 bonus DVDs (worth a total of \$291!): Advanced Pain Exam, The Best Case History, and Trigger Point Introduction!

Sclerotomes are maps of a patient's pain areas, arising from deep structures related to spinal nerves. We've developed a method to turn off a patient's pain right away using sclerotomes, with a much lighter pressure than ever before! This is a really cool technique, and so far we've used it on acute low back pain, a partially frozen shoulder, severe neck pain, fibromyalgia, etc. A brand new procedure that literally wipes out pain with a light swipe of your fingers!

To register, or if you have questions, call right now 303-756-9567 or 800-774-5078, or [fax the registration form, click here.](#)

Much more seminar info: www.pain2016.com

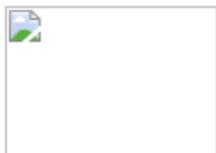

You really HAVE to read the astonishing BRAND NEW reports of over 50 practitioners from the previous Mentor Classes! Many of these doctors report seeming miracles and a HIGH percentage of patients responding to the techniques- [click here!](#) Or call us to have us send you this amazing document!

It's Like 20 Seminars in 1 Weekend!

**You'll learn so many simple NEW techniques- they take seconds to do,
and turn off pain and many other symptoms on the spot!**

It's exactly like taking 20 seminars in one weekend!

**Yet EVERY single technique is so easy,
it can be learned in less than 2 minutes!**

**The new P.N.T Brain Technique Reflexes™ and the
Parasympathetic Tidal Wave Treatment-** learn to

IMMEDIATELY unleash a flood of profound healing and deep relaxation by lightly stimulating simple points by hand for a few seconds! This will completely change the game in your practice! Turn off pain and MANY, many symptoms- the treatment takes seconds, with objective measurement of rapid change!

- The Brain Technique Reflexes™ make any other treatment much more powerful!
- The techniques are so simple and easy to learn, I taught them in minutes to my assistant and his wife, with extraordinary results!
- Extraordinary new uses in kids!
- I'll show you EXACTLY how to present these techniques to your patients to unleash a massive flood of new referral patients!

[Please read the ASTONISHING reports from over 40 doctors on the P.N.T. Brain Technique Reflexes, click here.](#)

I'll show you EXACTLY what I did to stop chronic pain in seconds on one M.D. after another (over 60 in all), in front of 400 attendees at a recent medical conference. Can you imagine: a chiropractor praised by hundreds of M.D.s for breakthrough clinical developments.

"I'm a 3rd-year medical student. I watched Dr. Kaufman treat upwards of 50 M.D.'s at the ACAM conference. Immediately after treatment, each doctor said they felt at least 80% better, and many of them admitted to close to 100% improvement. The next day, I was able to ask 12 of them how they were doing since treatment the day before. 11 of 12 told me they felt much better or amazingly better." **Gerard Pesca, N.D.**, Phoenix, Arizona

I'll show you EXACTLY what I did to stop chronic pain in seconds on one M.D. after another (over 60 in all), in front of 400 attendees at a recent medical conference. Can you imagine: a chiropractor praised by hundreds of M.D.s for breakthrough clinical developments.

The **October 15-16, 2016** Intensive Pain Elimination Training Boot Camp will be new and different in several ways. **This One Time Only:**

- **Last chance- Save \$700 before August 9, 2016! Register now and pay only \$1297; full price \$1997 at the door.**
- You can divide the price of the seminar into 6 monthly payments, if you want!
- a \$200 SEMINAR CREDIT for every attendee you refer, so forward this email to your friends!
- **6 Bonus DVDs- "M.D. Referrals", "P.N.T. for Practice Building", "Advanced Pain Exam", "Advanced Case History", "Trigger Point Intro"**
- \$119/night special almost half price room rate at the fabulous Hilton Garden Inn, Denver Tech Center, 303-770-4200!

Every time we've taught in the past few years we've had many M.D.s, D.C.s, L.Ac.s, and P.T.s get instant, lasting relief from chronic pain and other symptoms! I've seen this happen time after time from these fantastic techniques so naturally I have the confidence to expect it to continue. (Of course, just because it happened every time in the past doesn't mean it will always happen in the future. And not every patient responds. But you will see miracles.)

Now I know you may be thinking "**this is too good to be true**". I assure you, the Pain Neutralization Techniques™ and the advanced Pain Elimination Techniques don't work on every patient. These doctors' reports are some of our best testimonials and may not be typical; your results will vary. Although most of the practitioners using these techniques are ecstatic about the results, including D.C.s, L.Ac.s, M.D.s, etc., **you** won't know until you try them how they'll work for you. Therefore we offer a **30 day, no questions asked, no hassles, you don't need a note from your mother, 100% satisfaction guarantee.**

**"I ABSOLUTELY 100% GUARANTEE you you'll be *thrilled* with this material,
your patients will jump up and hug you,
your practice will grow by leaps and bounds from referrals,
or you pay *nothing!*"
The ONLY fully guaranteed technique!**

Frankly, I can't promise the techniques will work for you since I don't know you or your patients. They've worked for so many people but who knows? It might be different for you. But I **can** assure you you'll be delighted with this class, or you pay nothing. Try the techniques on your patients for 30 days after the class. If you and your patients are not absolutely ecstatic you took this class, if you don't see real miracles your first week back in the office, if you don't see a flood of new patients seeking your help, just call me for a full refund within 30 days of the class (limited to course fee only.) What could possibly be more fair?

Who else offers such a complete, risk free warranty? I'm obviously completely confident you'll LOVE this material.

To tell the truth, I have almost no risk. The techniques are so amazing that almost no one ever requests a refund.

Can't come? Hey, no problem- thousands of practitioners have learned the techniques from DVD! The DVDs are ALSO guaranteed, and approved for 15 C.E.U. hours through N.C.C.A.O.M.! Click here www.painneutralization.com

Live Action Seminar- October 15-16, 2016 Denver CO.

Come be a part of the P.N.T. community!

Disclaimer: Calculating generally expected performance results is difficult or impossible, because there is no "typical" user of our products. We've made a good faith effort to share the actual experiences of our practitioners and their patients. Every practitioner (D.C., L.Ac, M.D., P.T.,N.D. and L.M.T.) is unique in terms of their background , training, and understanding. Each will apply the procedures in their own unique way. Every patient is also individual in how they will respond to treatment. Our general impression is that most practitioners find the techniques easy to learn and apply, and easy on the doctor. Many of their patients with chronic and acute pain will show improvement. Some patients do not respond at all. We're always eager to for our students to give us feedback on the results they're getting. P.N.T. and the other techniques are not effective for every patient. Several treatments are usually needed for lasting results. These reports were all written by the doctors themselves; they may not reflect Dr. Kaufman's opinion. These are our best testimonials and may not be typical. We assure your total satisfaction with the class material or your money refunded. Refunds are limited to the class fee only, exclusive of expenses, by calling within 30 days after the class date. Stephen Kaufman D.C. and Kaufman Technique LLC are not responsible for any loss or damage resulting from the use of these procedures or any information on DVD, in class, or in written form. We reserve the right to refuse admission or sales to anyone.

(This is an advertisement for a new technique. We sent it to you because we thought you would be interested in this type of material, like many of your colleagues. If you want to unsubscribe, please write "unsubscribe" in the subject line and send a reply. You will be unsubscribed immediately, and we sincerely apologize for the inconvenience. Thank you.)
