Dear students,

Bonjour à tous! Aidez-moi!

I am working on a video project and I need your feedback.

What would you like to be able to do when you are in France?

Do you know for instance how to order coffee? Coffee in France are : américain, double espresso, noisette, crème, allongé etc...

Do you know what some french gestures mean?

Have you ever been in awkward cultural situations where you did not know how to solve the problem?

That are the typical mistakes you think you always do?

What is it you secretly always wanted to know about how to communicate better in French?

Merci,

Sylvie
