Hi Karyna, the cost to make these shelves and install them will be \$800,-
You will have to specify where exactly they have to be attached.

> Please see attached below the drawing with the dimensions for the floating shelves. We need 2 shelves like that in white lacquer (high gloss) finish. As for the distance between them, I can not tell for sure right now, but they can start making the shelves anyway and I can tell that distance later before they install it.
