Below is the picture with the mattress info that we selected last time, and the sales person's card is on it too, see if she will be available to help you (Ruth Ellen Fleming is her full name). The dimensions of the bed are 76"W x 80"L , so please ask which size mattress would match that (it is probably king or california king). We need the mattress with a protector only, NO box spring. The mattress will have to be shipped to LSJ as well.
