From one of Davids contacts...another program!! He wasnt happy with my Autocad, Sketchup, Rhino, V-Ray, Grasshopper, InDesign, Illustrator, Photoshop.
If someone tells me somethings a steep learning curve its only going to make me do it!! I know Revit and the steepness of its curve ;)

Hi [REDACTED]. A limitation we have is our commitment to Revit. This makes collaboration inside the office difficult for those who don't know it and it is a steep learning curve. However lets talk some time next week. And David is being very kind. I would describe myself as fairly talented and pretty smart.

Jeffrey Cole, R.A., President

Thank you David,

Jeff it is lovely to 'meet' you.

I am a [REDACTED] graduate in Interior Design, very much looking forward to continuing my career in the industry.
