Hi Kathryn,

Everything is great! Flight was super smooth. It does look like they will be riding back with Leon. There was an issue with Jeffrey's plane and it is in London now being fixed. Jeffrey discussed this with Woody and Soon-Yi and they seem to be OK with it. I don't have details, but will work on getting them!

Hi [REDACTED],

How is everything going? All smooth sailing (or flying) on the ride over?

Just to clarify, are they taking Leon Black's plane back?

Hope all is well!

Kathryn

Hi Kathryn,

I think if the Allens arrive at the plane by 8pm that should be OK. The location is at Shelt Air at JFK. I drove out there last night and it's pretty easy to find. As soon as you are arriving at JFK, you want to follow signs for General Aviation. There is an exit on the right for General Aviation before you reach the main terminals. Shelt Air is in the General Aviation building number 145. I think it's a pretty new FBO, do its not on any signs yet. As long as they follow the General Aviation signs, they will be OK. Here is a link with numbers as well if the driver wants to call for directions as well.

As always, I'm on my cell if there are any issues. [REDACTED].

Is there anything special you think I should have on the plane for them as far as drinks, food, anything else?

Thanks, [REDACTED]!

[REDACTED], if you could let me know when and where (at JFK) the Allen's should meet up with Jeffrey, that would be great.

Thank you,

Kathryn
