---

It's ok then, let's keep it as it is. But thank you! Did Penn say when are they going to do the cable?

No not at all but opening it up will look alot better. You dont need to do it but removing arch shape will look more modern.

Does the arch need to be squared in order to place the cable?

Hi! I met with Penn and Anthony from the building yesterday to discuss the cable It wont be a problem to do but we all decided that we should square off the arch going into your dining area. Penn can do and it will look a lot better!!!!!!
