JE said he would be interested in the Hawaiian stripe.. or any type that is big and fat.  
I also have Janusz looking at nurseries in PB to see what they have.  
Arran, let me know when you find out what the place in Puerto Rico has to offer. Thanks..

Greetings [REDACTED]

I contacted a local nursery (Bryan's Plants) to see what species of bamboo was available if JE just wanted a sample, while Arran is researching with the PR nursery. They carry two species:

"Golden Goddess" (*Bambusa multiplex*): maximum height 8-10 feet, stalk about 1 inch in diameter, sold in 7-10 gallon container for \$75;

"Hawaiian Stripe" (*Bambusa vulgaris Vittata*): maximum height 50 feet, stalk about 4 inches in diameter, \$150 each

Bryan's Plants confirmed having some of each in stock, their weekend hours are Saturday 8 am to 4:30 pm, and Sunday 8 am to 1 pm. They accept check or cash, no credit cards.

Please advise, DW

OK thanks. yes, if we can get the types they have so he can make a choice that would be good.

**Subject:** Bamboo

Hey guys..

JE wants to see if we can order bamboo in Puerto Rico that can be shipped to LSJ along with any trees we are ordering from PR. Firstly, do we have an order of trees that is coming from Puerto Rico? and do you know how we can find out if they sell bamboo as well? JE wants to put bamboo at least in the burm(lowered garden area) as well as other areas I think.

Please let me know who can help out with researching this. thanks
