I have reserved dial 7 to collect you from the airport tomorrow as citicar is still not functioning properly with the gas problems.

Dial 7 work differently. You must call them when you are ready at the airport. The voice will tell you to 'press 1 if you have arrived at the airport'. The driver will then come to the pick up area within 5-7 minutes. They do not get out of the car and fetch you inside baggage claim.

Please confirm that you get this. Look forward to having you back :)
