I know JE is also aware how old the TVs are, etc. He got a quote awhile back to replace everything but never did. Honestly I don't think anyone really watches TV except in the kitchen. So the fact there is no cable elsewhere is fine.

Valdson told [REDACTED] and also Mr. Epstein. So both [REDACTED] and Mr. Epstein are aware of the situation about the TV.

- ❖ The 2 TV sets (kitchen and Mr. Epstein's bedroom) which are working, are old TV sets (approximately 10/12 year old).
- ❖ There are 4 TV sets in the 4 bedrooms for guests and 2 TV sets in the 2 rooms on the top floor.

does Valdson told JE about it? Can Valdson provide a list with old TV sets that have to be replaced? Why do we keep old TVs that are useless? Anybody mentioned it to JE?

No real problem! It has been like this for a long time. My understanding is that no subscriptions are paid for several TV sets and according to Valdson the other TV sets are too old and cannot be adapted to get any channels. This has been so for more than 2 or 3 (???) years!

Best regards.

I checked with Valdson, who just confirmed on the phone that as of today, everything is in working order in the apartment.

Please note however that "cable TV" works only in Mr. Epstein's bedroom and in the kitchen. The other TV sets do not get "cable TV". is fully aware about this.

Best regards.
