Hi Karyna
Thanks for clarification, we were planning on setting up CPR and Defibrillator class for some of the crew at LSJ, will chat with you about this next week
Zorro has a class set for mid May, which we will cancel, waiting for the new defibrillators
Thanks again

Hello to All,

The defibrillators for Zorro, Airplane and LSJ, GSJ are at 9 E 71st.
We will bring the new defibrillators for Zorro once we fly there.
The one for the airplane Mr. Epstein did not want to replace yet, until the new airplane is fully ready.
LSJ, GSJ are still on hold too, due to the construction situation on the island. We will bring them personally when we will be staying there and I would like to personally show everyone how it operates.

Thank you.

Hi Bella

FYI - Zorro does not have new Defibrillators!

Unless there was a plan to bring them on the plane when next on site

How many were purchased for LSJ?

Anna can you confirm that you received new units

Thanks

Evening Bella

I have located Aircare Access FAK #235074 & EMK #224280 still tagged with expired tags & meds

Located the plastic bags of new meds, with the new tags, have disposed of all expired items, restocked with new, noting there will need to be a restock 11/18. I will make note of this 10/18 - reminder

The Defibrillator is in bad shape - old model. We should order a new unit

We should also order a FAK Med Kit for GSJ since there is nothing on site. JE confirmed he would want a Defibrillator on GSJ also

I located x 3 of the old Medaire kits which I will disposed of

Will review all of this next week

Thanks

Warmest regards
