Because you don't already have enough to do..

JE wants to see white wood sample with a high gloss finish. the workers can apply it to the existing sample today. Is the sample at 301 now? Can I have [REDACTED] give to the workers in 8H and ask them to apply the high gloss? Maybe they could do the high gloss on half of the sample this morning and maybe it would still be ready for you to bring with you to paris if it's dry. that would be good. anyways, let me know if [REDACTED] can give sample first thing this morning if it's at 301

Yes we can do that we should be down there at about 9 am and will be obviously in apt 8H so if the sample can be brought there or left with the doorman.

Thanks

yes, she has it at the building. Can the workers put the high gloss finish on it today at the apt building?

Hi [REDACTED] it takes a few days to do the sample does your friend have the sample we did for you if so we can put a coat of high gloss on it.

Thanks

Colette

Good morning Colette,

I know your guys are starting the work in 8H today. The owner of the apt is now debating the Country White with a high gloss finish instead of satin. Is it possible to get a sample of country white with high gloss before they start the staining process? Sorry to be such a pain!

On May 21, 2012, at 9:00 PM, Colette McGoldrick wrote:

Yes I will get that to you tomorrow when we measure up.

Thanks

Colette

Could you quote me how much it would be for you to replace the baseboards with the one you sent me a photo of for the whole apt?

Ok yes we will start 8H tomorrow and we will get 11P also started probably Thursday or Fri, but yes 8H would be finished by Friday.

If you could arrange for the furniture to be removed from 11P by Thursday that would be great

Thanks

Colette

Great.. yes, you can definitely start 8H tomorrow. Can I anticipate

8H being done by end of day Friday?

I have some furniture in 11P which needs to be taken out first before we can pull up the carpet and start on the floors. Our painter prefers that we refinish the floors first prior to painting, so we have some wiggle room on pulling up the carpet in 11P.. basically it can be done whenever you guys are ready to do the floor in 11P. I'm working on getting the furniture out of there asap

Hi [REDACTED],

I just had a job put back a few days that we were supposed to do tomorrow so we could remove the carpeting in apt # 11P tomorrow and start 8H if that is possible. Let me know thanks

Thanks

Colette

So we will have you refinish the floors in 8H first, then we will have it painted. We are going to replace the baseboards, so if your men can take off the current baseboards prior to refinishing the floors, that would be helpful. We want to do the Country White finish in the whole apt, living room and bedroom. Can your men start this apt on Wed of this week?

We can start 8H for you on Monday, if painters are finished but can you find out if they will be as I need to schedule my other work accordingly. I will check with my guys and let you know when we can remove carpeting.

Thanks

Hi Colette,

We really like the Country white floor sample.

One of the studio apts we need to have you refinish, 11p, has carpet that needs to be pulled up first, then we want to paint the walls, then we will have you refinish the parquet wood floors after the paint job is complete.

Are your men able to pull up the carpet for us first, or is this something I need to have someone else do? I'm just trying to schedule the painters, but need to know when the carpet can be pulled up

first.

Also, I'm having a one bedroom, 8H, painted this week, then I will be ready for the floors to be refinished in the Country white in the whole apt and would like to schedule the work for that apt as well.

Would it be possible to schedule the start of 8H floors for next week?

Thanks for your help!
