---

Good Afternoon

Attached Photos - showing items when we opened container, a selection of furniture unwrapped, noting a number of cushions show marks where the wood as bleed onto the fabric. All seat cushions very firm.

Dining seat cushions are creamy yellow. Sections of untreated pine are screwed underneath the wooden pieces.

Wooden furniture legs will need to be capped off to stop moisture soaking in and keep above the ground

Have placed all other pieces in storage room in the tunnel

Warmest regards

[REDACTED]
