Hi Colette,

Yes, I saw the worker in 11P this morning and saw the stains. He said he would try and see if the stains come out first with the bleaching, and if not, then we can replace. If they don't come out with the bleaching process, then yes, definitely we will have them replaced. And yes, we will proceed with the baseboards in 8H and 11P. I saw the sample for that as well today.

Thank you!

The floors look great in 8H by the way!
