Dear Dr. Salentijn,

Thank you very much for your proposal and sharing this exciting work with me! It sounds like it could be a great learning tool for the future students and I feel greatly honored to be one of the first people to learn about your idea!

Please allow me to pass it on for review and I will get back to you with the feedback I receive.  
I look forward to the further discussion and learning more about your project!

With my best regards,

Karyna
