With warmer weather here and 300,000 people diagnosed every year in the United States with Lyme Disease, we get a lot of questions about ticks. Here are the most important things you need to know about Lyme Disease and prevention.

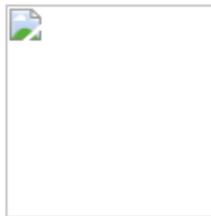

HOW CAN PRIORITY PRIVATE CARE HELP?

If you find a tick, or you are either experiencing symptoms or have a rash, please contact us to speak to one of our world-class physicians by phone or video. If you would like to see a doctor in person, you can visit our facility anytime, and house calls are available in NYC and in the Hamptons during the summer. For more details and technical information, we encourage you to contact us.

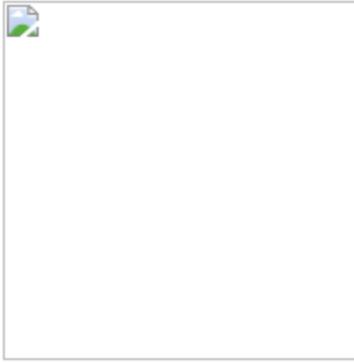

"You can have a VIP emergency room doctor on call, for a price"

"An E.R that treats you like a VIP"
