dear Dr salentijn. Thank you for your proposal I will pass it on. My intial observations are that the proposal contains mostly "whats" but is short on "hows". There is no use of funds. Reasearchers? programmers? equipment? ? no milestones? though robotic surgery has advanced greatly in many specialties. Are there any projects to date that lay the foundation for this needed and revolutionary idea? .

Dear Karyna,

Attached is the proposal I promised to send to you. It has taken a bit longer than I anticipated, but I wanted to make sure that all i-s were dotted and t-s crossed. I look forward to discussing this exciting work with you.

Dear Dr. Salentijn,

I hope you are doing well and enjoy the summertime.  
I look forward to our dinner with Jeffrey and Dr. Magnani. Prior to our dinner I thought it might be helpful if you would kindly send us a detailed proposal for your project please. I hope it is going well and you enjoy working on it.

I very much look forward to seeing you soon!

With my best regards,

Karyna
