What follows is your personal natal chart information, as well as interpretations of the positions and aspects in your chart.

With this report, you will find out the positions of the planets in your natal chart by sign. The most personal of these are the Sun sign, Moon sign, Mercury sign, Venus sign, and Mars sign. Most people already know their Sun sign. If your time of birth is known, you will also find out your Ascendant, or rising sign, as well as the positions of the planets in the houses of your chart. Aspects between the planets are also listed and interpreted.

If the birth time is unknown, you may not know the Moon sign for certain. This is because the Moon changes signs approximately every 2-1/2 days, making it quite possible that someone is born on a day in which the Moon sign changes. Less probable but still possible is a change of signs for the other planets and luminaries, depending on the planet itself (example the Sun changes signs every 30 days or so). For an unknown time, on some birth dates the Moon may be in one of two possible signs. The possible range for Moon signs can be determined by noting the sign at 00:01 and also at 23:59.

Each paragraph of interpretation refers to an individual position in your chart. All of these positions and aspects are some of the "parts" that make up a "whole"--you! Some of these interpretations will be contradictory, just as people are contradictory. A person can be downright timid in love, and that same person can be aggressive in business. Not only that, we evolve and grow throughout our lives, facing challenges that help us to handle our positions and aspects in a different way. We all have choices, and one of the largest benefits of astrology is the ability to understand ourselves better so that we can work with our natal charts rather than against them. Any computerized report that interprets the individual placements in a natal chart is somewhat disjointed, simply because the different parts that make up the whole are not synthesized.

Some of the interpretations that follow are detailed, while others are brief. You can do some further reading about different positions (such as Moon in Libra, Saturn in the 10th house, Moon conjunct Mercury) in your chart by exploring our own site, other astrology sites, and by reading astrology books.

Planet Positions, Ascendant, & Houses

The following table shows the position of the planets in your chart, by sign and degree. On the right, you will find the sign of your Ascendant and the signs on the cusp of each house in your natal chart. The Roman Numerals refer to the houses, where the Ascendant is also the first house and the Midheaven is also the tenth house. For example, if the sign Taurus is next to Mars, you know your Mars is in Taurus. If the sign Libra is next to Venus, you know your Venus is in Libra. If Cancer is next to Ascendant, you have a Cancer Ascendant, and if Leo is next to II, Leo is on your 2nd house.

Natal Chart Report

Birth Chart

This birth chart report shows the positions of the planets for Karyna .

The Sun represents vitality, a sense of individuality and outward-shining creative energy.

Sun in Gemini

With the Sun in Gemini, the urge for self-expression is strong. These natives are often just as interested in collecting information as they are in sharing it. Curious to a fault, Geminis have a finger in every pie.

Solar Geminis are flexible and changeable people. Their ability to adapt quickly to new situations generally gains them plenty of friends and social contacts. Usually quite clever and witty, Geminis enjoy intellectual conversations and they are easily bored if they are not getting enough mental stimulation.

Often quite adept at fitting in with others, Geminis easily adopt the moods of those around them. They are friends to people from all walks of life, and are not easily intimidated. Their ability to detach themselves can make Geminis very objective and

observant, but a little difficult to get close to. Although they often have many friends, intimacy doesn't come as easily to Solar Geminis.

It can be difficult to know what Gemini really feels at any given moment. They are often very impressionable and scattered. There is usually a nervous air to Geminis that can make more personal characters a little uneasy. It is not always intuitive to trust Geminis to be loyal or to keep secrets. Geminis often flit about, moving quickly and keeping busy every step of the way. Many people with this position of the Sun have gained quite a bit of knowledge in their lifetimes, but they don't often possess specialized knowledge. This is because Geminis have relatively short attention spans. Restlessness is especially common with this position of the Sun.

Usually quite affable, Geminis enjoy the "light" side of life. This tendency to take things lightly makes them quite pleasing to be around; but it can be maddening to people seeking support on the deeper issues in life. Geminis are both interesting and interested. Their wit can be dazzling and their changeability dizzying. At the very least, Geminis will seldom bore you.

Short description:

She is an opportunist. She can express herself easily and learns quickly. She is welcoming and gentle. She likes travel and intellectual work.

Weaknesses: a changeable and diffuse nature. Wastes energy by doing too many things. She lacks persistence in achieving set goals.

Gemini ascendant Aquarius

Sun in III

You need activity and a change of scenery often, or you feel restless. You take pride in your mental agility and your friendships. You are able to adapt quite easily to whatever environment you're in. There is a strong need to communicate your knowledge to others and to learn. Your curiosity is endless. Take pride in your intellectual or

communicative abilities without feeling the need to lord it over others or to always be "in the know". You have a solid grasp of facts. You have a strong influence on your peers.

132 Conjunction Sun - Jupiter

Endowed with generosity and friendliness, in some ways you appear to be lucky in life. You attract good things with a positive frame of mind and a charitable disposition. Rarely entirely "down and out", you are usually well-received, helpful, and well-informed. You may enjoy travel and have a special affection for foreign places and people. You're generally not very competitive, and for the most part not combative either. As a result, you are usually well-liked. You are usually good-hearted, possessing strong morals and much faith in life and in people. You prefer to find the good in situations and in people. You don't have a lot of patience with those who break the rules, as you generally believe in order, equality, and the law. You usually make good on your promises, and the sincerity you exude can be trusted. Looking on the bright side is your forte--people can turn to you for a pleasing dose of faith and optimism. You are quick to chuckle and can't resist any appeal to your sense of humor. Some people with this aspect are downright jolly. Others are less conspicuous, but their faith in life and willingness to find humor in life are nevertheless obvious.

40 Trine Sun - Lilith

The Moon represents the emotional responses, unconscious pre-destination, and the self-image.

Moon in Aries

Nothing quite happens soon enough with this position of the Moon. There is an inherent impatience with getting what they want. Life is a series of emergencies for Lunar Ariens. They live in the moment and have a hard time waiting for things to happen. Whims of the moment take absolute precedence in their lives. This is a fiery position of the moon. Even if the Sun or rising sign is more low-key, Moon in Aries people possess inner passion and fire. Emotional issues take precedence--there is

simply no pussy-footing around when it comes to dealing with the feelings. And, dealing with new sentiments and needs stirs up a huge desire for activity. Moon in Aries has a need for acting out their needs, with no time to waste. It is hard for them to see the long-term, or to wait for things to happen. Instant gratification rules!

Oddly enough, this is a very defensive position of the Moon. These natives take things very personally, and they deal with problems by facing them right away so that they can then get on with other things. Their flare-ups generally end almost as quickly as they started. Lunar Ariens have an unmistakable independent streak. They put themselves right out there in the world, and make an impression in whatever they do. Their self-confidence is actually variable. Although a strong personality is projected, Moon in Aries people go through plenty of ups and downs. Their moodiness is not like Cancer or Pisces moodiness--they don't withdraw into themselves or escape the world when they're down. Instead, they are temperamental. Some might say that people with Moon in Aries actually enjoy trouble and confrontations. Indeed, this position is easily bored with environments that are too peaceful. Their homes--especially their childhood homes--are often battlegrounds. They rule the roost, or at least want to, and are not the most peaceful of folk to live with!

Moon in Aries men and women are prone to have plenty of crushes and other short-lived yet intense desires. "Needs" and "wants" are indistinguishable to Lunar Ariens at any given time. In their minds, what they want is so powerful that it becomes an absolute need. In young adulthood, they can be dangerous with a credit card. Whoever offered the advice to freeze your credit card in a container of water, and then let the block of ice thaw before using the card, unwittingly had people with Moon in Aries in mind. The whole idea was to see if the shopping whim of the moment would pass by the time the card was ready to use. Still, with this scenario, I wouldn't be surprised to see Moon in Aries hacking away at the ice. That is, if Aries actually takes the advice in the first place!

Others will appreciate that people with Moon in Aries rarely sulk or play any drawn-out games of manipulation. You can pretty much know what they want at any given time. They are generally ruled by their own emotional needs, and they're not always as concerned about others' needs during these "emergencies". Somehow, they have people

around them scrambling to help them solve their problems. There's an aura of childlike innocence around Lunar Ariens, even when they're getting their way again, that can be charming indeed!

Moon in I

Very sensitive. Fantasizes. She is easily frightened, she is fearful, shy, prudent and emotional.

Your feelings are right out there for everyone to see, and you can come across as emotional and impatient, or nurturing and caring (or both). Your first reaction is emotional, especially if the Moon is in close proximity (within ten degrees) of the Ascendant degree. You need emotional stimulation, movement, and freedom to express yourself in order to feel happy and fulfilled. Your moods are very changeable, and this can be quite obvious to others. Because of your emotional sensitivity, you might often take things too personally, and react too quickly. Developing an awareness that others' emotions are just as important, even if they are not as overt and immediate as yours, will be important.

-43 Square Moon - Mars

You can be precocious, animated, and passionate. You seek emotional excitement in your life. Although you often project a brave and tough image, your skin isn't as thick as you'd have others believe. You tend to put up defenses due to your emotionally vulnerable and excitable disposition. Unrest is characteristic, as you are bored by routine and become easily frustrated when life is "too easy". There's a buzz of energy surrounding you, and you tend to meet with many conflicts in your life. With the opposition, the conflict tends to be lived through relationships. The passions are quite raw, especially in youth.

If you can channel your excitable energy into sports or some other competitive field, all the better. Although you can be a decidedly amiable and interesting person, others always seem to sense your boundaries. Something is bound to get you worked up, and it's not always clear what that something will be. Your bluntness can be both

appreciated and considered offensive, depending on your audience! You are eager to make a personal impact on those around you. It is possible that you are too eager in this sense, and you come across as self-absorbed and difficult to stomach. Patience is definitely not your strong point! Your responses are quick, and you are a passionate person who is usually quite courageous although your energy is sporadic and sometimes wasted. You are sexually responsive.

Short description: She is very emotional and is driven to do things by her emotions. She does not think things over or through in a given situation. She is irascible and easily angered or fired up. Marital disputes are very likely, and a heated domestic atmosphere.

194 Sextile Moon - Jupiter

She is generally pleasantly composed, due to an inner sense of harmony and emotional balance. She is optimistic--and realistically so, most of the time--which contributes to her overall "luck". She is able to get a real perspective on emotional matters that not only benefits her outlook, she is able to offer support to others when needed. Broad-mindedness is a wonderful characteristic. Quick to find humor in situations, she is generally warm and fun to be around. Deep down, she believes in the basic goodness of people and of life in general, and this basic and natural attitude helps her to attract positive circumstances and to make good connections. One of her best qualities is tolerance. Usually, she doesn't take life too seriously in the sense that she believes in having a bit of fun. Her hunches are more often than not bang-on.

She is frank, honest, optimistic and generous. She likes good cooking, her comforts. Her friendships are sincere. She is a worker and knows how to surround herself with the right people: She is appreciated at work.

-111 Square Moon - Saturn

When Moon is in hard aspect to Saturn in the natal chart, natives need to learn to trust others more. Fear keeps them from fully enjoying personal relationships, and fear is behind the occasional rigidity that they express. When they let themselves receive

nurture or care from others, an inner voice cautions them that it might not be sincere, long-lasting, or enough! There can be some reluctance about becoming a parent, but once taken on, these people don't take their responsibility lightly.

Emotional reticence is the main theme of these aspects. Many people with this aspect had a lot of conditions placed on the love they received in early childhood. They tend to expect the same later in life. With hard Saturn aspects, individuals are often plagued with doubts, not only about the self but about what to expect from life itself. The problem is that expecting difficulties or negative situations creates an aura around them that perpetuates the problem. They must work hard at positive thinking and expecting more from life. Ironically, many people with hard Saturn aspects can be quite sarcastic, skeptical, and rigid in manner. This is essentially a defense mechanism designed to protect themselves from harshness in the world.

It is extremely likely that they feel neglected because they perceive it in the first place, and later expect it, to be the case. There's a vicious circle going on here that can only be broken when the patterns created by negative conditioning are broken. Adjusting one's perceptions and expectations is the key to breaking out of these negative patterns. Otherwise, natives of hard Moon-Saturn aspects will live life feeling left out--attracting circumstances that perpetuate a feeling of deep unhappiness and dissatisfaction.

Short description: She has changeable moods, a reserved character, is stubborn and lacks assurance. Her relationship with her mother may have been difficult, she has may have had considerable family problems. This is the standard aspect for children who are abandoned or who lacked maternal love.

-49 Square Moon - Neptune

She lacks firmness, and can be a sucker for a sob story! She likes to live in a dream, in the world of imagination, and can hope so much that reality checks can be brutal.

-112 Opposition Moon - Lilith

Love-at-first-sight is to be avoided, as it will make one forget all other duties and lead

to ruin.

84 Sextile Moon - Ascendant

She has a good influence on the family, which loves and helps the person. She likes travelling, movement, change. She likes contact and is open to other people.

Mercury represents communication, Cartesian and logical spirit.

Mercury in Taurus

She is faithful to her ideas, unchangeable and quietly opinionated, persistent, but discreet. Likes all the pleasures life can offer. Careful in speech, deliberate, intelligent. Learns best through the senses, not through the traditional educational system. She possesses plenty of common sense, and her simplicity makes it easy to get from point A to point B in as few steps as possible!

Weaknesses: stubborn, obstinate, withdrawn. Slow to react.

Mercury in III

Deep studies. Adaptable. She is attracted to the Arts/letters. She knows how to share ideas. Moves around a lot professionally. She can easily keep many irons in the fire at the same time. A true multi-tasker.

This is an especially curious and inquisitive position for Mercury. You are generally very interested in reading, teaching, speaking, exchanging ideas, keeping current with the daily news, and perhaps gossiping. Your interests are many and varied, sometimes to the point that you barely skim the surface of any one topic. You are also very easily distracted and your attention span can be quite short. Quick to learn, you are also swift to share what you know with others. You can be very talkative when you have the chance. You can be a list maker, and often are quite involved in your community. Some of you can be quite nervous or fidgety.

Venus represents an interest for emotions and values, exchange and sharing with others.

Venus in Gemini

Venus in Gemini people will try to win over the object of their affection with witty conversation, displaying just how much they "know", and demonstrating their diverse interests. These lovers are playful -- some might even call them a tease. They are hard to pin down, and they resist relationships that promise to become too "comfortable". Even those with their Sun in Taurus or Cancer, whose outward demeanor may suggest some reserve and caution, will want their relationships to be stimulating and full of conversation with Venus in Gemini. Venus in Gemini men and women don't want to be tied or bogged down in their relationships. They appreciate lightheartedness in love. Although they are willing to talk (perhaps endlessly) about the relationship, you may get the feeling that they gloss over some of the deeper issues. In love, their tastes change often, and it can be hard to know what to expect from one day to the next (or, sometimes, from one hour to the next!).

Pleasing Venus in Gemini involves supporting their need for fun and variety, showing interest in their brainpower and knowledge, and giving them space for friends and activities outside of the relationship. Let them know just how much fun you have with them. Try not to get overly miffed by Venus in Gemini's changeable, fickle ways. Remember that time spent with your lover will be exciting and invigorating.

Venus in IV

She is lucky enough to have many happy occasions all through life. Strong friendships which can affect the emotional life. She usually makes a good marriage. Happy family life. Good work situation.

You seek balance, beauty, harmony, and peace in your home and domestic life. You might be especially attracted to luxury or quality/comfort items in the home, and you likely have an eye for interior decorating. There is a loving, personal touch to the way you decorate your home. Your love is decidedly sentimental, and you show your affection through nurturing and displays of sympathy. You don't give your heart out

easily, but when you do, you do it with great emotion. It's very easy for you to become attached to a partner, and possibly smothering or overly dependent if you are not careful. Your parents' marriage affects your own partnering skills and style more than most. A parent may be especially charming, beautiful, or otherwise Venusian. On the negative side, this parent may have been especially indulgent or overprotective with you.

73 Conjunction Venus - Jupiter

She is good-hearted, generous and has a good character. She likes well-being, comfort, a life without problems. She has good relations with her circle. She is easy to approach. All the same, she falls in love easily. She has a successful married and professional life.

5 Trine Venus - Ascendant

She likes everything beautiful, the Arts, balance and harmony. She is amiable and sociable. She likes entertainment and has a loving nature.

Mars represents the desire for action and physical energy.

Mars in Cancer

This position inclines toward passive-aggressiveness. These people seem to resist change and to shy away from direct confrontations. They need to feel secure before they act. As a result, they can appear rather slow at times. Their motto is "The best offence is defense". They may appear weak to some, but they can be very strong. Their strength lies in their tenaciousness. Their sex drive can be very tied up with emotional need. At their best, they turn others on with a protective, almost therapeutic way about them. The protective nature of Cancer is best expressed when Mars in Cancer natives are turning the energy outward -- when they are being the protectors of others. Turning it inwards is when there are problems. They must avoid over-sensitivity and self-protection when it comes to sex. Some Mars in Cancer people are especially turned on by the thought of creating a baby.

These people are threatened by indifference. They can be argumentative and manipulative. Their energy levels are variable, and they can appear to move rather slowly. They have defensive reactions and bursts of emotional displays when they feel cornered. With reassurance and confidence, these natives are protective, helpful, and dependable in the long haul. They prefer to handle situations peacefully and humanely.

Mars in VI

She works with great pleasure and flat out but meets with problems at work, where professional rivalry blocks her ideas and enjoyment.

You tend to work hard, sometimes to the point of exhaustion! You put a lot of energy into your work, and would do best working for yourself or for someone else but independently, as you can quickly become impatient if other members of a team are not working as fast as you. You are also easily upset with procrastination. You can be very skilled at organizing and re-organizing, sorting, classifying, and analyzing. You put a lot of energy into any job you do, and you can easily become riled up or defensive if someone criticizes or intrudes upon the work that you do.

-47 Opposition Mars - Saturn

She is only interested in doing something if there are problems attached: once these are solved, she goes on to something else which has complications. She likes to overcome obstacles, is tough, does not have too many feelings, especially in business. She is egoistic, violent and stubborn. She does not always make friends.

-17 Opposition Mars - Neptune

This is a challenging position, as you have difficulty trusting in your ability to go after things that you want in a direct manner. It may also be that you have difficulty pinpointing what it is that you want, or that part of you doesn't feel you deserve it due to a basic lack of self-confidence. You fear rejection as well as criticism, and often use roundabout means to go after what you want.

Your imagination is so powerful that it can be hard to trust your instincts. You easily imagine things going wrong, just as you easily fantasize about good things! Your desire nature is strong yet also very suggestible. You're attracted to mysteries and intrigue. Sexual experimentation is likely, as you are forever addicted to sensuality and unusual or perhaps even what many would consider perverted sexual scenarios. However, your sensual appetite might be much like a bottomless pit, and you could find yourself forever in a state of wanting more, tiring of regular sexual scenarios quickly, and endlessly searching for the next sensation. If an addiction to fantasy is present, you can find yourself constantly chasing a new and more complicated fantasy. It is only when you get into touch with your heart and discover your true desires that you realize that sensations are merely sensations--not deeply satisfying or fulfilling. \r\nFears of sexual inadequacy can be great with this position, and you may either deny yourself as a result, or overcompensate, seeking out experiences in which you are pretty much assured positive feedback. Some of you will experience both of these extremes in your lifetime.

Although you can be very creative at keeping your motives and personal agenda hidden--in fact, many of you seem on the surface of things to be quite gentle and yielding--you might eventually become resentful if you feel the need to resort to sneakiness in order to get what you want out of life. If you do feel resentment for giving up your power to someone else, learn to avoid giving it up unless you truly understand that you are doing it for yourself, and not for someone else. Resentments have a way of building and distorting themselves into ugly matter if you don't deal with them properly and directly. You are often passive-aggressive in your approach to others, and this can cause a lot of problems in your life. You are usually found chasing a dream... or a fantasy. The former is probably the better path. \r\nAdopting a more direct and assertive approach to life is something that you should be working towards. You will need to get over your feelings of guilt when you do adopt this approach. Learning to take responsibility for your actions, and to avoid blaming others for failures, is important. At your worst, you can be disorganized in your approach to life, easily procrastinating and lacking follow-through when you do begin a task. Some of the most important lessons you need to learn in life are self-control, self-assertion, and trust in yourself. At your best, you are a creative person with a powerful imagination and great stores of compassion.

House I is the area of self identity. The ascendant is a symbol of how one acts in life. It is the image of the personality as seen by others, and the attitude that one has towards life.

Gemini ascendant Aquarius

Ascendant in Aquarius

How unique and original Aquarius rising natives come across! These individuals are just that -- individuals, and they won't let you forget that fact. Often turned to for advice, these natives possess intellectual poise and savvy. They often are curious, and quite learned, in both science and metaphysics--anything that involves advancement of the human race holds much appeal. It's hard to shock an Aquarius rising. They've seen it all, or at least want you to think they have. In fact, they often enjoy shocking others. Not that they are flamboyant by nature, but they do like to, albeit quietly, get a rise out of others. Some natives born with Aquarius on their Ascendant can be quietly provocative and irreverent. Most people with this Ascendant are quite friendly and likable. Their personality quirks generally go over quite well with others. They generally give others quite a bit of freedom--accepting, as a rule, people from all walks of life as equals. And, their somewhat cool and detached curiosity about all that goes on around them appeals to most.

Curiously, Aquarius rising people can be a little standoffish while also coming across as humanitarian and kind. Often labeled as independent and original children, Aquarius rising natives often feel a little "different" or "special" throughout life. They often feel like they are on the outside looking in, and their ability to observe and deduce is often uncanny. They're also adept at getting things to work, even when the parts that make up the whole seem like a puzzle with unusual pieces--especially when it comes to groups of people. This sets them apart as managers and team leaders. The Ascendant often

reveals physical mannerisms and even choice of dress, as it shows how people present themselves to the world. With Aquarius here, natives sometimes have a quirkiness to their manner, and some dress in a slightly offbeat manner--not enough to make them stand out like a sore thumb, but just enough to express their original temperament.

Because these people seem so open to new ideas, it may be surprising when you encounter their decidedly stubborn streak. Aquarius is a fixed sign, after all. The ascendant sign shows how individuals react to new situations, and with Aquarius rising, there can be a resistance to change that seems to belie the native's generally progressive nature. There's a distinct inflexibility with Aquarian rising people, and, sometimes, a tendency to want to force their opinions on others. With their eye to the future of mankind as a whole, some people born with an Aquarius Ascendant overlook the more personal needs of the people closest to them. They are often attracted to partners who possess self-confidence and ardor.

House II is the area of material security and values. It rules money and personal finances, sense of self-worth and basic values, personal possessions.

House II in Aries

Financial success is more likely when she uses her entrepreneurial spirit. However, impulsive spending is likely. Won't ask for money, wants to be self-made. Doesn't receive much financial help.

House III is the area of social and intellectual learning.

House IV is the area of home, family, roots, and deep emotions/sense of self-worth.

House IV in Gemini

Impossible to stay in one place, frequently changes home. If the job is monotonous, she will often change firm. The ideal profession would be one offering a lot of change, moving around, meeting lots of new people. An equally erratic love life is to be expected.

House V is the area of creative self-expression, romance, entertainment, children, and gambling.
