Hi ██████,

The wall between the Library and the "secret conference room" behind it is actually a large electrical panel—that's what prevents WiFi from reaching that room.

I've added a spare WiFi basestation inside that room to work around that, so WiFi should be strong and great in there now.

Thank you,

Hi ██████,

I can check it out tomorrow at 10AM, if that is okay?

Hi James,

Jeffrey asked if you could please check the WiFi in a small room off the library (where the umbrella table is). Last time he was there he had no internet.
When would be a good time for you to check on it please?

Thank you,
