---

can you also forward mattress receipt as i want to review mattress dimensions as that will be first question that Ducduc asks..  
thanks

Hi Rich,

We have an issue with the beds, that were ordered for the island from Ducduc.

According to Karen all the beds are short by at least 3 inches and can not fit the mattresses. She checked the dimensions of the mattresses, all of them are 80in long, which is a standard length for queen and king size, therefore we concluded that the bed frames are shorter, then they should be.

Jeffrey would like you to speak with Ducduc please and request a replacement for all four beds.

I have attached below a sales order from Ducduc, which states that we ordered 3 queen size beds and 1 king.

Please let me know if there is anything I can help with.

Thank you very much!

Karyna

Hi Karyna

Some bad news the canopy beds are to short for the base/mattress, by at least 3 inches

I will review options about what we can do either way it will not be easy and let you know

All the best
