Dear Richard

The fabric from PINTO/JULES ET JIM is the one for the curtains which are finished ,kept in storage in Paris waiting the rooms to be finished to avoid problems of humidity in a storage on the island.

These curtains will leave Paris in a few days and as soon they will be delivered in LSJ the upholsterers will come to do the installation.

That's why they are on the list of invoices but not in the furniture container.

I hope it is understandable.

With my best regards

jean
