Yes , I have read and re-read In addition on the prescribing information it states that if lipids after the first month have not dramatically increased , no further test should be required. . As my lipid levels have not changed from before and after , what would you need , for this months prescription?

Dear [REDACTED],

Happy New Year. Please see this <https://www.ncbi.nlm.nih.gov/pubmed/16971314> from the government website.

Do you have your copy of the ipledge agreement you signed?

Dr. Marmur

Dear Dr Marmur,

Hope you are enjoying your holidays.

I would like to make sure I understand my obligations re future blood tests in order that I continue on the Accutane. I understand now that the only test I must take for you is the pregnancy test. If this is not the case please let me know as soon as possible and I would appreciate being pointed to the reference that you believe requires it.

Thank you.
