I've got the file and I'm working out the logistics.

The material I'm thinking we go with is called Artist UltraFlex UltraCanvas. I'm thinking for this test run we do a stretch canvas on a gallery frame that you could hang until you want to proceed with the larger project.

I'm doing my best to get material delivered and the frame built as quickly as possible, but having this delivered for Friday is a bit of a stretch. I'll keep you posted as things come together. Let me know if what I mentioned above is agreeable.

Thanks.

-Bill

Nothing coming through with this attachment. [Dropbox.com](http://Dropbox.com) is a good way to send large files.

I'll see what we can do as far as getting something printed and delivered to you Friday. It will depend on what materials we have in stock, and their size. Please send the file when you can and we'll do our best. Thanks.

Hey guys. attached is the photo I'd like to print 8'x8'. It's already sized. Please let me know if you need me to send another way so it is a higher resolution. I had sized it to 200dpi, but email won't let me send file that large, so if there's another way you prefer me to get it to you let me know. I just found out my boss is coming back to NY on Saturday and I'm wondering if we could get this printed by Friday so he can see it this weekend? Is that possible? Also, what sort of material do you suggest to print it on now? Thanks!
