Hi [REDACTED] the small clothes dryer in the laundry room is not operating ,I took the unit apart checked all the safety switches that would keep the dryer from heating up and cleaned the exhaust pipes and the unit still wont heat. The small dryer is about 12 to 15 years old and needs to be replaced . I found a better Whirlpool gas dryer at PC.Richards with a larger capacity for \$1000.00 I would like to purchase this today .Thanks RB
