Founder and President

Testimonials:

"I was very impressed with the quality of this course. The techniques that we were taught are at the leading edge of current research and I feel comfortable in the knowledge that my patients will now benefit from the highest quality treatment possible by current standards."

Erin Partridge, General Practitioner, Armidale, Australia

"Pascal's course is a must if you want to create stable, lifetime, lifelike restorations. Thanks Pascal for being so generous with your knowledge and expertise that you have unselfishly shared with us."

Pauline Puno, General Practitioner, San Francisco, CA

"The course has been amazing! I have never seen a course with such a great organization and attention. It's definitely a career-changing experience! I wish more people knew about it. You're all doing an extraordinary job. Thank you for 4 fantastic days!"

Adriana Cordero Wilson, Prosthodontist, New Orleans, LA

"Highly recommended course with an excellent educator who inspires. There will be a paradigm shift in how I run my practice and approach dental materials and restorations."

Khoo Huan Ding, General Practitioner, Singapore

"As a dentist who strives to serve his patients in the best way possible, one must rise above the mediocre. This course helps expand one's tool base to provide excellent care."

Timothy Nawrot, General Practitioner, Vegreville, AB, Canada

"This has been one of the most intense but entirely engaging and career transforming courses I have ever attended. Pascal Magne is an indisputable genius and an extremely generous teacher."

Gaynor Langley, General Practitioner, London, UK

"I am very astonished by the way ■■■ Magne took three different parts (dentin, enamel, and dentin-enamel junction) and made them into one from the trinity perspective. And I got more details about

the immediate dentin sealing procedure to complete the concept of biomimetics. I learned more about respecting the tissue biology and making restorations from the tooth preparation conservatively. I love to focus on the original natural properties of teeth. Thank you for giving me this opportunity to search for the truth."

Te-Wen Lai, General Practitioner, Ping Tung City, Taiwan

"IDEA has captured the essence of outstanding Continuing Education with superior service, outstanding facilities and masterful teaching. Pascal Magne ranks among the very best instructors in my 36 years of Continuing Education."

Stuart Nunnally, General Practitioner, Marble Falls, TX.

"Great facility and great people. This particular course will certainly change the way I treat my patients going forward. Pascal Magne is as advertised; passionate and very generous educator."

Karene Blair, General Practitioner, Mandeville, Jamaica

"This course was a Paradigm shift from the way I was practicing adhesive dentistry. ■ Magne provided a process of being conservative and protecting the dentition. He also provided the tools to accomplish this."

Danute Abriani, General Practitioner, Willoughby, OH

"I've been doing biomimetic dentistry for about 7 years. There are a few ways to do it and a few different materials to choose from. But the more I learn about and use Pascal's methods, the better results I get. Now I use as much of Pascal's stuff as possible. My patients and I are benefitting from it"

Tyler Shiner, General Practitioner, Vernal, UT

"Thank you for sharing all the little things that make dental restorations beautiful and functional. I can't wait to return to the office and use my new found knowledge and skills."

Allison House, General Practitioner, Phoenix, ■

"I have been doing direct and indirect composite resin and porcelain restorations for a many years. However, after sitting through Pascal's course, I was blown away! The amount of extra and useful information was overwhelming. Every dentist should attend this course."

Kenny Wong, General Practitioner, Singapore

"A must course for any new graduate or experienced dentist. Pascal Magne's information on bonded restorations will change the way you do dentistry forever."

Chris Lang, General Practitioner, Oakville, ON, Canada
