Good idea, I think we need to make a plan of action.

What is the best way to go about it? I would think it would be to source breeders that breed the fawn color, find out if they have at the moment, or when they are born and what age they leave the mother. I think one of us will have to go out and see them to take pictures for him and give him an opinion.

FYI
would be best they come from Colorado, [REDACTED], UT area
i'll be point of contact, please forward info, otherwise we will all
be hitting the same breeders.
OK
