**Subject:** [Final Reminder] Chiyo's Medical Records

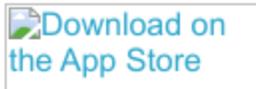

**Date:** Sun, 05 May 2019 23:28:44 +0000

---

 Park East Animal Hospital Logo

Hello Karyna,

We wanted to provide one final reminder asking you to open Chiyo's records because of the impact this could have in the future. Over 16 million pets go to an emergency clinic every year, and taking these steps now will ensure that you can access Chiyo's complete medical record (i.e. labwork etc..) when you need them the most. Chiyo's records have already been uploaded, and are ready for you to view. Please click here to download them:

[iOS Users Click Here](#) [Android Users Click Here](#)

This is the most effective way to keep access to Chiyo's records with you wherever you go, as new records will be automatically synced without any action required. In order to access Chiyo's records, please register with [REDACTED] and verify ownership of your email. At that point, records we have on file will become available to you. Once you have the app we recommend reviewing the records on file.

This would be a good time to verify Chiyo is up to date on vaccines as well as all known allergies are listed. VitusVet has also made a computer-only version available [here](#).

Thank you for your time and we look forward to serving Chiyo with the best in modern care.

Sincerely,

The Doctors and staff at Park East Animal Hospital.
