Hi Steve,

It was nice to see you today!

I spoke to Jeffrey about the ideas for the elevator door that we discussed today. He just wants to have the same type of door as he has on the other floors (like the one you saw on the 1st floor).

I am sending you photos of what we have on the 4th and 1st floors as an example.

Could you please find out from Seraphim approximately how long would the project take?

Thanks a lot!

Karyna
