Hi Rich,

I don't, but might have to find someone. It does sound crazy with Evelyn. Jeffrey told me to hold on with this project until the decorators come, perhaps they will have different ideas. Should know more after our trip on June 3rd.

Thank you.

do you have any nyc people that do this work
seems very expensive and open ended..
thoughts?

Evelyn returned my call today. Normally she requires 50% down to start, but she doesn't feel comfortable doing that with this project because she just doesn't know what she's getting into until she starts pulling the existing pieces apart. She said the removal of staples alone could be 18-20 hours per cushion, which would result in about a ten week project.

Since she's been doing work for us for 20 years, she is wondering if we would be willing to let her charge us just \$2K, take one seat and one seat rest, and just do those two. Then she will have a better idea of how long this will take and consequently how much the rest of the project will cost.

She would like to do it a few pieces at a time rather than take the whole thing apart at once. She wants us to know that she will not take on any other projects, but will make our project her focus, once she begins.

Karyna, do we have a timeline on the arrival of the new fabric?

Rich, please advise how you would like me to proceed.
